

WILSON SEATER BLANK - 7MM SEATER DIE BLANK

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. These die blanks allow the reloader to have a custom die made to their exact dimensions.

WILSON SEATER BLANK 7MM SEATER DIE BLANK

Safety Instruction Guide

Introduction

Thank you for choosing the WILSON SEATER BLANK 7MM SEATER DIE BLANK. This product is designed for use by reloading enthusiasts, particularly benchrest shooters. It is important to follow safety instructions to ensure safe and effective use of this die blank, which allows for custom die creation.

General Safety Guidelines

- Always read and understand all instructions before using the product.
- Ensure that the workspace is clean, dry, and welllit.
- Keep the product out of reach of children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Be aware of the potential hazards associated with reloading ammunition, including the risk of injury from incorrect handling.
- Regularly check for updates on product safety recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the die blank is compatible with your reloading setup and the specific cartridge type (7mm).
- Inspect the die blank for any signs of damage or wear before use. Do not use if damaged.
- Always follow the manufacturer's specifications for seating depth and bullet alignment.
- Avoid using excessive force when seating bullets to prevent case deformation or bullet damage.
- Store the die blank in a safe and dry location when not in use to prevent corrosion or damage.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary reloading equipment, including the WILSON SEATER BLANK, reloading press, and appropriate components (bullets, cases, powder).
- Ensure that you have a clean and organized workspace.

2. Installation:

- Secure the WILSON SEATER BLANK into your reloading press according to the manufacturer's instructions.
- Check that the seating stem is properly fitted and adjusted for the bullet type you are using.

3. Usage:

- Place a cartridge case into the die blank.
- Insert the bullet into the case, ensuring proper alignment.
- Activate the reloading press to push the bullet into the case. Monitor the process to ensure straight seating.
- After seating, check the overall cartridge length and ensure it meets your specifications.

4. PostUsage:

- Clean the die blank after use to remove any residue.

- Store the die blank in its original packaging or a protective case to prevent damage.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of materials in household waste. Check for local recycling or hazardous waste disposal programs.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the contact information provided by the manufacturer. It is important to have access to assistance for any questions or concerns you may have.

Thank you for your attention to these safety instructions. Proper usage and adherence to safety guidelines will enhance your reloading experience with the WILSON SEATER BLANK 7MM SEATER DIE BLANK.
