

# BODY DIES - 338 LAPUA MAGNUM BODY DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Body Dies are designed to full length resize the case body, bump the shoulder position for proper chambering, but not size the neck at all. They are made without internal parts and are intended for resizing cases which have become increasingly difficult to chamber after repeated firing. After using a body die, the case should be run through the neck die to achieve proper neck tension. Sold separately or as part of a set.

# **BODY DIES 338 LAPUA MAGNUM BODY DIE Safety Instructions**

## **Introduction**

Thank you for purchasing the BODY DIES 338 LAPUA MAGNUM BODY DIE. This product is designed to help you resize cartridge cases for optimal performance. To ensure safe and effective use, please read and follow these safety instructions carefully.

## **General Safety Guidelines**

- Always handle reloading equipment and components with care.
- Ensure that your workspace is clean, organized, and free from distractions.
- Wear appropriate safety gear, including safety glasses, when operating reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Be aware of the potential hazards associated with reloading ammunition, including the risk of injury and damage to property.
- Report any unsafe products or incidents to the relevant authorities.

## **Specific Safety Precautions for Use**

- Do not use the body die for resizing cases that are not compatible with the 338 Lapua Magnum cartridge.
- Ensure that the body die is properly mounted in your reloading press before use.
- Inspect the body die for any damage or wear before each use. Do not use if damaged.
- Avoid excessive force when resizing cases, as this may lead to equipment failure or personal injury.
- Follow the manufacturer's instructions for using the body die in conjunction with neck dies for optimal results.
- Store the body die in a secure location when not in use to prevent accidental injury.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure your reloading press is securely mounted and stable.
- Attach the BODY DIES 338 LAPUA MAGNUM BODY DIE to the press according to the manufacturer's instructions.
- Make sure the die is tightened properly to prevent movement during operation.

### **2. Usage:**

- Begin with clean, spent cartridge cases that need resizing.
- Insert the case into the body die and lower the press handle to resize the case body and bump the shoulder position.
- After resizing, remove the case and inspect it for proper dimensions.
- Run the resized case through the neck die to achieve proper neck tension before loading.
- Always follow up with safety checks after each resizing operation.

## **Disposal Instructions**

- Dispose of any damaged or wornout body dies according to local regulations.
- Do not dispose of reloading components in regular household waste.
- Check with local authorities for safe disposal methods for reloading equipment and materials.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the BODY DIES 338 LAPUA MAGNUM BODY DIE, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

By adhering to these safety instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to safety and responsible handling of reloading equipment.
