

BENCH REST® SEATER DIES - FORSTER SEATER, 223 WSSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Bench Rest Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Bench Rest Seater Dies were the first of their kind to utilize a close fitting chamber that holds the case, the bullet and the seating stem all in perfect alignment. This support system allows the reloader to produce exceptionally straight ammunition. Conventional seating dies with a fixed chamber and seating system may start your bullet into the case neck at an angle. They lack the support the Forster Bench Rest Seater provides.

Attributes

- Name: [FORSTER SEATER, 223 WSSM](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

Forster Bench Rest® Seater Dies Safety Instruction Guide

Introduction

Thank you for choosing the Forster Bench Rest® Seater Dies for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow all instructions carefully to avoid potential hazards and ensure optimal performance.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using the Forster Bench Rest Seater Dies.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Keep your workspace clean and organized to prevent accidents.
- Store the dies in a safe and dry location, away from children and pets.
- Regularly inspect the dies for wear and damage. Do not use damaged dies.
- Follow local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Before starting, read the instructions provided with your reloading press and other equipment.
- Use only recommended components (cases, bullets, and powder) as specified in the reloading manual.
- Never exceed recommended load limits. Consult reliable reloading data for guidance.
- Ensure that the die is properly secured in the reloading press before use.
- Do not attempt to modify or alter the die in any way.
- Be cautious of the potential for double charging cases. Always visually inspect each case before seating bullets.
- Keep fingers and hands clear of moving parts during operation.
- If you experience any unusual resistance or malfunction, stop using the die immediately and inspect it for issues.

Instructions for Installation and Usage

1. Installation:

- Clean the reloading press and ensure it is free of debris.
- Insert the Forster Bench Rest Seater Die into the press and secure it tightly.
- Adjust the die according to the manufacturer's recommendations to ensure proper alignment with the shell holder.

2. Reloading Process:

- Prepare your cases according to standard reloading procedures.
- Place a case in the shell holder and raise the ram to the top of the stroke.
- Insert the bullet into the case mouth, ensuring it is centered.
- Lower the ram smoothly to seat the bullet. Monitor for any signs of misalignment or resistance.
- After seating, inspect the completed round for proper bullet seating depth and alignment.

3. PostUse:

- Clean the dies after use to remove any residue or contaminants.

- Store the dies in a protective case or container to prevent damage.

Disposal Instructions

- Dispose of any damaged or unusable dies according to local regulations.
- Do not dispose of reloading materials in regular household waste. Follow local guidelines for hazardous waste disposal.
- Ensure that all components are disposed of safely and responsibly to prevent environmental harm.

Contact Information for Further Support

For further support regarding the Forster Bench Rest Seater Dies, please refer to the manufacturer's website or contact their customer service team directly. They can provide additional assistance and information regarding safety concerns or product inquiries.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Forster Bench Rest® Seater Dies. Always prioritize safety and adhere to best practices in reloading to enjoy the benefits of precision ammunition production.
