

280 REMINGTON BRASS CASE - 280 REMINGTON BRASS 50/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

Nosler takes a few extra steps with their brass to make it a premium component for the handloader. The brass is first weigh-sorted to within + or - 0.5 grains, then the flash holes are deburred. Nosler completes the case prep with neck sizing and chamfering the inside and outside of the case mouth. All Nosler unprimed brass bears the Nosler headstamp.

Attributes

Safety Instruction Guide for 280 Remington Brass Case

Introduction

Thank you for choosing the 280 Remington Brass Case from Nosler. This guide provides essential safety information to ensure the safe use of the product. Please read this guide carefully before handling or using the brass cases.

General Safety Guidelines

- Ensure that all components used with the brass cases are of high quality and suitable for reloading.
- Always handle firearms and ammunition with care and in accordance with the manufacturer's instructions.
- Keep brass cases out of reach of children and unauthorized individuals.
- Regularly check for updates on product recalls or safety notices through the EU Safety Gate platform.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Only use the brass cases for their intended purpose in reloading ammunition.
- Verify that the brass cases are free from defects before use.
- Follow all safety protocols when reloading, including wearing appropriate protective gear such as safety glasses and gloves.
- Be aware of the potential hazards associated with handling ammunition components, including the risk of injury from sharp edges or improper handling.
- Ensure that your workspace is clean and free from distractions when reloading.

Instructions for Installation and Usage

1. Preparation:

- Inspect the brass cases for any visible defects or damage.
- Ensure that you have the necessary equipment for reloading, including a reloading press, dies, and appropriate powder and primers.

2. Reloading Process:

- Begin by weighing the brass cases to confirm they meet the required specifications (+ or 0.5 grains).
- Deburr the flash holes to ensure proper ignition.
- Perform neck sizing and chamfer the inside and outside of the case mouth as needed.
- Proceed with the reloading process according to your specific reloading manual.

3. Storage:

- Store the brass cases in a cool, dry place away from direct sunlight.
- Keep the brass cases in a labeled container to avoid confusion with other components.

Disposal Instructions

- Dispose of any unusable or defective brass cases in accordance with local regulations.
- Do not throw brass cases in regular household waste.

- Consider recycling options for brass materials where available.

Contact Information for Further Support

For additional support or safety inquiries regarding the 280 Remington Brass Case, please refer to the appropriate contact channels provided by the manufacturer or retailer.

Thank you for your attention to these safety instructions. Your safety is our priority, and we appreciate your commitment to responsible handling and use of reloading components.
