

BENCH REST® SEATER DIES - 6MM DASHER BENCH REST SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Bench Rest Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Bench Rest Seater Dies were the first of their kind to utilize a close fitting chamber that holds the case, the bullet and the seating stem all in perfect alignment. This support system allows the reloader to produce exceptionally straight ammunition. Conventional seating dies with a fixed chamber and seating system may start your bullet into the case neck at an angle. They lack the support the Forster Bench Rest Seater provides.

Attributes

- Name: [6MM DASHER BENCH REST SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

Forster Bench Rest Seater Dies Safety Instruction Guide

Introduction

Thank you for choosing the Forster Bench Rest Seater Dies, specifically designed for reloading 6mm Dasher cartridges. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the dies.

General Safety Guidelines

- Ensure that you are familiar with all aspects of reloading ammunition before using this product.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading.
- Keep the reloading area clean and organized to prevent accidents.
- Store all reloading materials, including dies, in a safe place away from children and unauthorized users.
- Regularly inspect your dies for wear and damage. Do not use damaged dies.

Specific Safety Precautions for Use

- Only use the Forster Bench Rest Seater Dies with compatible cartridges, specifically the 6mm Dasher.
- Ensure that your reloading press is compatible with the dies and properly secured before use.
- Do not exceed recommended load limits as specified in reliable reloading manuals.
- Never attempt to modify the dies or use them for purposes other than intended.
- Always follow proper reloading procedures to avoid double charging or other loading mistakes.

Instructions for Installation and Usage

1. Installation of Dies

- Ensure the reloading press is securely mounted to a stable work surface.
- Thread the Forster Bench Rest Seater Die into the press, ensuring it is tight and secure.
- Adjust the die according to the desired bullet seating depth using the seating stem.

2. Using the Dies

- Prepare your brass cases by cleaning and resizing them as per standard reloading practices.
- Insert a prepared case into the die chamber, ensuring it is seated correctly.
- Place the bullet on top of the case.
- Pull the handle of the reloading press to seat the bullet into the case. Ensure that the bullet is seated straight and at the correct depth.
- Inspect the finished cartridge for any defects before use.

3. PostUsage Care

- After reloading, clean the dies with a soft cloth to remove any residue.
- Store the dies in a dry, dustfree environment.

Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Avoid throwing dies in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the Forster Bench Rest Seater Dies, please refer to the manufacturer's website or contact your local distributor. Ensure you have the product details ready for assistance.

Conclusion

Following these safety instructions will help ensure a safe and successful reloading experience with your Forster Bench Rest Seater Dies. Always prioritize safety and stay informed about best practices in ammunition reloading. Thank you for your attention to these important guidelines.
