

BENCH REST® SEATER DIES - 308 WINCHESTER BENCH REST SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Bench Rest Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Bench Rest Seater Dies were the first of their kind to utilize a close fitting chamber that holds the case, the bullet and the seating stem all in perfect alignment. This support system allows the reloader to produce exceptionally straight ammunition. Conventional seating dies with a fixed chamber and seating system may start your bullet into the case neck at an angle. They lack the support the Forster Bench Rest Seater provides.

Attributes

- Name: [308 WINCHESTER BENCH REST SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

Safety Instruction Guide for BENCH REST® SEATER DIES 308 WINCHESTER

Introduction

Thank you for choosing the Forster Bench Rest Seater Dies for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR). By following these guidelines, you can minimize risks and enhance your reloading experience.

General Safety Guidelines

- Ensure that the reloading area is wellventilated and free from distractions.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Keep all reloading materials, including primers and powders, out of reach of children and pets.
- Store reloading dies and components in a secure location to prevent unauthorized access.
- Regularly check for recalls or safety notices related to reloading products on the EU Safety Gate platform.

Specific Safety Precautions for Use

- Read and understand the product manual thoroughly before use.
- Inspect the die for any signs of damage or wear before each use.
- Do not exceed the recommended load specifications for the 308 Winchester cartridge.
- Ensure that the die is properly secured in the reloading press before use.
- Avoid using excessive force when seating bullets to prevent damage to the die or the cartridge.
- Use only compatible components with the Forster Bench Rest Seater Die to ensure optimal performance.
- Never leave the reloading process unattended.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure your reloading press is clean and free from debris.
2. **Secure the Die:** Insert the Forster Bench Rest Seater Die into the reloading press and tighten it securely using the Forster Cross Bolt Die Locking Ring.
3. **Adjust the Die:** Adjust the die to the desired seating depth according to your reloading specifications.

Usage

1. **Case Preparation:** Ensure that your cases are clean and properly sized for reloading.
2. **Bullet Placement:** Place the bullet into the case mouth, ensuring it is aligned correctly.
3. **Seating:** Slowly lower the ram of the reloading press to seat the bullet. Monitor the process to ensure the bullet is seated straight.
4. **Inspection:** After seating, inspect the cartridge to confirm that the bullet is seated to the correct depth and is straight.

Disposal Instructions

- Dispose of any damaged or unusable reloading components in accordance with local regulations.
- Do not dispose of reloading materials in regular trash. Instead, follow your local hazardous waste disposal guidelines.
- Keep all reloading materials out of reach of children and pets until they can be safely disposed of.

Contact Information for Further Support

For any inquiries regarding safety, recalls, or product support, please refer to the relevant EUbased contact point provided by the manufacturer. Regular updates can also be found on the EU Safety Gate platform.

By adhering to these safety guidelines and instructions, you can ensure a safe and successful reloading experience with your Forster Bench Rest Seater Dies. Always prioritize safety and stay informed about best practices in reloading.
