# 3DIE CARBIDE ROLL CRIMP SETS Safety Instruction Guide

## Introduction

Thank you for choosing the 3DIE CARBIDE ROLL CRIMP SET, designed for safe and efficient reloading of 460 S&W cartridges. This guide provides essential safety instructions to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle the reloading equipment with care and follow all safety protocols.
- Ensure that you are using the equipment in a wellventilated area to avoid inhalation of any dust or particles.
- Keep the equipment out of reach of children and vulnerable individuals.
- Regularly check the equipment for wear and tear to avoid malfunction.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while reloading.
- Ensure that the work area is clean and organized to prevent accidents.
- Do not exceed the recommended load limits for the cartridges.
- Avoid distractions while operating the reloading equipment to maintain focus.
- Follow the manufacturer's instructions closely for each step of the reloading process.
- Dispose of any defective or damaged components safely and responsibly.

## Instructions for Installation and Usage

### 1. Setup of the Reloading Die Set

- Read the manufacturer's instructions carefully before beginning.
- Ensure that your reloading press is securely mounted and stable.
- Install the carbide sizer die in the reloading press according to the manufacturer's guidelines.
- Insert the expander die for expanding and bellng the case mouths.
- Finally, install the seater die, ensuring it is set to the desired profile or taper crimp.

### 2. Reloading Process

- Begin by inspecting all cases for damage or defects before reloading.
- Lubricate cases if necessary, although the carbide sizer die reduces this requirement.
- Use the sizer die to resize the cases, ensuring they are within specifications.
- Expand the case mouths using the expander die to facilitate bullet seating.
- Seat the bullets using the seater die, ensuring proper depth and crimp.
- Regularly check the weight of the powder charges to ensure consistency and safety.

### 3. PostReloading Procedures

- Inspect the finished cartridges for any defects or inconsistencies.
- Store the reloaded cartridges in a safe and appropriate manner.
- Clean the reloading equipment regularly to maintain functionality and safety.

## Disposal Instructions

- Dispose of any defective or damaged components according to local regulations.
- Recycle materials when possible, such as metal and plastic components.
- Do not dispose of hazardous materials in regular trash; follow local hazardous waste disposal guidelines.

## Contact Information for Further Support

- For any inquiries or support related to safety, please refer to the manufacturer's contact information provided with the product packaging. Ensure to follow local regulations when seeking assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with your 3DIE CARBIDE ROLL CRIMP SET. Thank you for prioritizing safety in your reloading activities.
