

3BR METERING INSERT - HANDGUN METERING CHAMBER - 0 TO 10 GRAINS

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

The 3BR is the Redding workhorse. It comes equipped with a quick-change micrometer insert, and a mounting bracket. Will work with most other bench stands. This measure throws powder charges from 5 to 100 grains with the universal (rifle) insert and one half to 10 grains with the pistol insert. The 3BR can be ordered with either insert. Redding powder measures work perfectly in the 11-1200 Sinclair Powder Measure Stand. Redding's other match grade powder measure is the BR-30 Competition Measure. This measure will throw powder charges from 10 to 50 grains and has the same style micrometer adjusting insert. We feel this is the best factory powder measure made today. The 3BR inserts will not work with the BR-30. The Redding Bench Stand elevates your measure above the bench surface for easy access and visibility. Works for any measure with 7/8 inch to fourteen threads. Also available is a double fingered clamp (shown in picture) for securing your stand to the bench (works a lot better than a regular C-Clamp).

Attributes

- Name: [HANDGUN METERING CHAMBER - 0 TO 10 GRAINS](#)
- Manufacturer: [REDDING](#)

Safety Instructions for the 3BR Metering Insert Handgun Metering Chamber

Introduction

Thank you for choosing the 3BR Metering Insert Handgun Metering Chamber. This product is designed to provide accurate powder measurements for your reloading needs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used according to the manufacturer's instructions to prevent accidents and injuries.
- Always handle powder and ammunition with care, as they can be hazardous.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the product.
- Use the product in a wellventilated area to avoid inhaling any powder particles.
- Do not exceed the recommended powder charge limits specified for the inserts.
- Ensure that the metering chamber is securely attached to the bench stand before use.
- Avoid any distractions while using the product to maintain focus and safety.

Instructions for Installation and Usage

1. Installation

- Select a stable and level surface for installation.
- Attach the metering chamber to the Redding Bench Stand using the provided mounting bracket.
- Ensure that the chamber is securely fastened and elevated above the bench surface for easy access.
- If using a double fingered clamp, secure it to the bench for added stability.

2. Usage

- Choose the appropriate insert (micrometer insert for rifle or pistol insert) based on your measurement needs.
- Adjust the micrometer to the desired grain setting before loading powder.
- Pour the powder into the metering chamber carefully, avoiding spills.
- Activate the measure to dispense the powder charge, ensuring that the chamber is clear of obstructions.
- After use, clean the chamber and inserts to prevent residue buildup.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- Do not dispose of powders or chemicals in regular trash. Follow local hazardous waste disposal guidelines for proper disposal of any unused or excess powder.

Contact Information for Further Support

For any inquiries or support regarding the 3BR Metering Insert Handgun Metering Chamber, please refer to the manufacturer's contact details provided in the product packaging or on the official website.

By following these safety instructions, you can ensure a safe and efficient experience with your 3BR Metering Insert Handgun Metering Chamber. Thank you for your attention to safety.
