

NECK SIZING DIES - REDDING NECK SIZING DIE 30-20 TC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Safety Instructions for Redding Neck Sizing Die 3020 TC

Introduction

Thank you for choosing the Redding Neck Sizing Die 3020 TC. This product is designed to enhance your reloading experience by ensuring precise neck sizing of your bottleneck cases. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Follow all manufacturer instructions and guidelines.
- Keep the die and all related tools out of reach of children.
- Always wear appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- Ensure your workspace is clean and organized to prevent accidents.
- Regularly inspect your tools for wear and damage. Do not use damaged equipment.
- Be aware of the specific requirements for the cartridges you are using.

Specific Safety Precautions for Use

- **Neck Sizing Only:** This die is designed specifically for neck sizing. Do not attempt to use it for sizing the shoulder or body of the cartridge cases.
- **Single Rifle Use:** Fired cases should not be interchanged between different rifles. This can lead to dangerous situations due to improper fit.
- **Proper Handling:** Handle the die with care to avoid injury. The die is made of highquality alloy steel and can be sharp.
- **Heat Treatment:** Be cautious of the die after use, as it may retain heat from the reloading process.
- **Storage:** Store the die in a cool, dry place to prevent corrosion and maintain its integrity.

Instructions for Installation and Usage

1. **Preparation:** Ensure that your reloading press is securely mounted and that you have all necessary tools at hand.
2. **Installation:**
 - Remove the die from its packaging.
 - Ensure that the die is clean and free from debris.
 - Insert the die into the reloading press according to the manufacturer's instructions.
 - Tighten the die securely to ensure it does not move during operation.
3. **Usage:**
 - Insert a fired case into the die.
 - Operate the reloading press to size the neck of the case.
 - Inspect the case after sizing to ensure proper fit.
 - Repeat the process for each case as needed.
4. **PostUsage:**
 - Clean the die after use to remove any residue.
 - Store the die in its original packaging or a designated storage solution.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check with local authorities for proper disposal methods for metal products.

Contact Information for Further Support

For any inquiries or support regarding the Redding Neck Sizing Die 3020 TC, please refer to the manufacturer's website or contact their customer service for assistance.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die 3020 TC. Always prioritize safety and adhere to proper handling and usage guidelines. Thank you for your attention to these important safety measures.
