

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6MM DASHER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM DASHER BULLET SEATING DIE

## Introduction

Thank you for choosing the L.E. Wilson 6mm Dasher Bullet Seating Die. This product is designed for precision and accuracy in bullet seating, particularly favored by benchrest shooters. This guide provides essential safety instructions to ensure the safe use and handling of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the entire manual before using the product.
- Ensure that the die is used only for its intended purpose as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of damage or wear before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about any recalls or safety alerts via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use protective eyewear when operating the die to prevent eye injuries from projectiles or debris.
- Ensure that your work area is clean and free from obstructions to prevent accidents.
- Do not exceed the recommended specifications for the die, as this may result in malfunction or injury.
- Always ensure that the bullet and cartridge case are properly aligned before seating.
- Avoid using excessive force when operating the die to prevent damage or injury.
- Store the die in a secure place when not in use to prevent unauthorized access.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the reloading press is securely mounted on a stable surface.
- Insert the bullet seater die into the press according to the manufacturer's instructions.
- Adjust the seating stem to the desired depth based on your bullet specifications.

### 2. Usage:

- Prepare your cartridge cases and bullets according to standard reloading practices.
- Place the cartridge case in the die, ensuring it is fully seated.
- Insert the bullet into the case mouth, ensuring it is properly aligned.
- Slowly engage the press handle to push the seating stem down, seating the bullet into the case.
- Check the overall length of the cartridge after seating to ensure it meets your specifications.
- Repeat the process for additional cartridges, maintaining focus and caution throughout.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the die in regular household waste; consult local waste management authorities for proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of responsibly.

## **Contact Information for Further Support**

For any inquiries regarding safety, use, or product support, please refer to the appropriate contact channels provided by the manufacturer or retailer.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience with the L.E. Wilson 6mm Dasher Bullet Seating Die. Always prioritize safety in all aspects of your reloading activities.
