

TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 220 SWIFT

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 220 SWIFT

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 220 SWIFT. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper use may lead to personal injury or damage to the product.
 - Handling of reloading materials may pose risks if not managed correctly.
- **Avoiding Hazards:**
 - Always follow the manufacturer's instructions for setup and operation.
 - Do not exceed the recommended specifications for the bushing neck die.
 - Ensure that the work area is clean and free of obstructions.
 - Handle all components with care to prevent accidental injury.
- **AgeSpecific Warnings:**
 - This product is not suitable for individuals under the age of 18 unless supervised by a responsible adult.
 - Keep all components, including small parts, away from children.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure that your reloading press is securely mounted and stable.
 2. Select the appropriate sizing bushing based on your desired neck size.
 3. Insert the sizing bushing into the die body and secure it tightly.
 4. Attach the adjustable decapping rod to the die, ensuring the button is correctly positioned.
- **Usage:**
 1. Place the case into the shell holder of your reloading press.
 2. Raise the ram to position the case into the die.

3. If resizing only a portion of the neck, adjust the decapping rod accordingly.
4. Lower the ram to complete the resizing process.
5. Inspect the resized case for quality and uniformity before proceeding to the next step.

- **PostUsage Care:**

- Clean the die and bushing after each use to prevent corrosion and ensure longevity.
 - Store the product in a dry, safe place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any worn or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular trash. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any questions or concerns regarding the product, please contact the manufacturer or your local retailer for assistance. Ensure to have your product details available for reference.

Thank you for your attention to these safety instructions. We hope you enjoy using the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 220 SWIFT safely and effectively.
