

# TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 6MM REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments. The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber. This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

## Attributes

# Safety Instruction Guide for TYPE S BUSHING NECK DIES

## Introduction

Thank you for purchasing the TYPE S BUSHING NECK DIES from REDDING. This product is designed to help reloaders achieve precise control over case neck size and tension. To ensure safe and effective use of this product, please read and follow the safety guidelines and instructions outlined in this manual.

## General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the workspace is clean and free of obstructions.
- Keep the product out of reach of children and vulnerable individuals.
- Use protective eyewear when operating reloading equipment.
- Regularly inspect the equipment for wear and damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Use only compatible sizing bushings as specified by the manufacturer.
- Do not exceed the recommended neck resizing limits to avoid damaging the cases.
- Always secure the die in the reloading press before use.
- Be cautious when adjusting the decapping rod to avoid injury.
- Ensure that the decapping pin retainer is properly installed to prevent accidents.
- Avoid using the die with damaged or deformed cases.

## Instructions for Installation and Usage

### 1. Installation

- Secure the die in the reloading press according to the manufacturer's instructions.
- Select the appropriate sizing bushing and insert it into the die.
- Adjust the decapping rod to the desired position for neck resizing.

### 2. Usage

- Place the case into the shell holder of the reloading press.
- Raise the ram to bring the case into contact with the die.
- Apply steady pressure to resize the neck as needed.
- Lower the ram and remove the resized case from the press.
- Repeat the process for additional cases as required.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the product in general waste. Follow specific guidelines for the disposal of metal and plastic components.
- Contact local waste management authorities for proper disposal procedures.

## **Contact Information for Further Support**

For any questions or concerns regarding the TYPE S BUSHING NECK DIES, please refer to the manufacturer's website or your point of purchase for assistance.

Thank you for prioritizing safety while using the TYPE S BUSHING NECK DIES. Your adherence to these guidelines will help ensure a safe and enjoyable reloading experience.
