

TYPE S BUSHING FULL DIES - REDDING 6.5X55MM SWEDE BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.
