

# TYPE S BUSHING FULL DIES - 270 WINCHESTER BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

## Attributes

- Name: [270 WINCHESTER BUSHING FULL LENGTH TYPE S DIE](#)

# Safety Instruction Guide for TYPE S BUSHING FULL DIES 270 WINCHESTER

## Introduction

Thank you for choosing the TYPE S BUSHING FULL DIES 270 WINCHESTER. This guide provides essential safety information to ensure the safe use of this product. Please read this guide carefully before using the die to understand the necessary precautions and instructions.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose as specified in this guide.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Keep the workspace clean and organized to minimize the risk of accidents.
- Store the product in a dry place away from direct sunlight to prevent damage.
- Regularly check the product for wear and tear; discontinue use if any damage is found.
- Dispose of any packaging materials responsibly to prevent harm to the environment.

## Specific Safety Precautions for Use

- **Avoid Injury:** Always handle the die with care to avoid cuts or injuries.
- **Proper Handling:** Do not apply excessive force when resizing cases to prevent damage to the die or cases.
- **Bushing Adjustment:** Ensure the bushing is correctly adjusted before use to achieve the desired neck sizing.
- **Decapping Rod:** Use the adjustable decapping rod carefully to avoid pinching or injury.
- **SelfCentering Feature:** Make sure the bushing is properly seated on the neck of the cartridge case for optimal concentricity.
- **Children:** Keep this product out of reach of children and vulnerable individuals.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have all necessary components, including the die, bushings, and decapping pin retainer.
- Read the manufacturer's instructions for any additional details specific to your setup.

### 2. Installation:

- Install the Type S Bushing Full Die in your reloading press according to the press manufacturer's instructions.
- Adjust the die to the desired position for fulllength resizing.

### 3. Using the Die:

- Select the appropriate bushing size for your cartridge.
- Adjust the decapping rod to the desired depth, ensuring it does not interfere with the resizing operation.
- Insert the cartridge case into the die and operate the press slowly and steadily.

### 4. After Use:

- Clean the die and bushing after each use to remove any residue and prevent corrosion.
- Store the die in a protective case or container to avoid damage.

## **Disposal Instructions**

- Dispose of the die and any components in accordance with local regulations.
- Recycle packaging materials where applicable to minimize environmental impact.
- Ensure that any hazardous materials are disposed of in a safe and responsible manner.

## **Contact Information for Further Support**

For any safety inquiries or support related to the TYPE S BUSHING FULL DIES 270 WINCHESTER, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

Please remember that your safety is paramount. Follow these guidelines to ensure a safe and effective reloading experience.
