

CHAMBER TYPE BULLET SEATER DIES - 338 LAPUA MAGNUM BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

CHAMBER TYPE BULLET SEATER DIES 338 LAPUA MAGNUM BULLET SEATING DIE Safety Instruction Guide

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 338 LAPUA MAGNUM BULLET SEATING DIE by L.E. WILSON. This product is designed for precision bullet seating in benchrest shooting. To ensure your safety and the optimal performance of this product, please read and follow the safety guidelines and instructions provided in this manual.

General Safety Guidelines

- Always handle the bullet seating die with care and ensure it is used in a wellventilated area.
- Keep the die out of reach of children and vulnerable individuals.
- Inspect the die for any damage before use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating the die.
- Follow all local laws and regulations regarding ammunition reloading and shooting.

Specific Safety Precautions for Use

- Ensure that the bullet seating die is compatible with .338 Lapua Magnum cartridges before use.
- Do not exceed the recommended bullet and cartridge specifications as indicated by the manufacturer.
- Always ensure that the die is securely mounted to a stable reloading press.
- Avoid distractions when using the bullet seating die to maintain focus and precision.
- Never attempt to modify the die or use it for purposes other than its intended use.
- Always keep fingers and hands clear of moving parts during operation.

Instructions for Installation and Usage

Installation

1. **Prepare Your Workspace:** Ensure your workspace is clean, organized, and free from unnecessary items.
2. **Mount the Die:**
 - Securely attach the bullet seating die to your reloading press following the manufacturer's instructions.
 - Ensure that the die is tightened properly to prevent movement during use.

Usage

1. **Setup:**
 - Insert the appropriate seating stem into the die.
 - Adjust the seating depth according to your specifications by turning the adjustment screw until the desired depth is achieved.
2. **Loading:**
 - Place an empty .338 Lapua Magnum cartridge case into the die.
 - Insert the bullet into the case mouth, ensuring it is aligned properly.

3. Seating the Bullet:

- Operate the reloading press to push the bullet into the cartridge case.
- Ensure the bullet is seated straight and at the desired depth.
- Remove the completed cartridge from the die.

4. Check for Consistency:

- Periodically check the seating depth of the bullets to ensure consistency and accuracy.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, consult local waste disposal guidelines for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the CHAMBER TYPE BULLET SEATER DIES 338 LAPUA MAGNUM BULLET SEATING DIE, please contact the manufacturer directly. Ensure you have the product details available for reference.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your bullet seating die. Always prioritize safety and compliance with local regulations when engaging in ammunition reloading activities. Thank you for choosing L.E. WILSON products.
