

CHAMBER TYPE BULLET SEATER DIES - 7X57MM MAUSER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

CHAMBER TYPE BULLET SEATER DIES 7X57MM MAUSER BULLET SEATING DIE Safety Instruction Guide

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 7X57MM MAUSER BULLET SEATING DIE. This product is designed for precision bullet seating, particularly favored by benchrest shooters. To ensure safe and effective use, please read and follow the safety guidelines and instructions outlined in this manual.

General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure that the die is used in a wellventilated area.
- Keep the die out of reach of children and unauthorized users.
- Inspect the die regularly for any signs of wear or damage.
- Use only compatible cartridges as specified: 7 mm Mauser (7 x 57 mm Mauser).
- Follow all local laws and regulations concerning ammunition reloading and use.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Wear appropriate protective gear, including safety glasses and gloves, during operation.
- Ensure that the work area is clean and free of obstructions.
- Do not exceed the recommended specifications for bullet and cartridge case alignment.
- Always doublecheck the alignment of the bullet and cartridge case before seating.
- Do not attempt to modify the die or its components in any way.
- If you experience resistance while seating the bullet, stop immediately and investigate the cause.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is compatible with the 7/8 inch x 14 thread size.
- Securely attach the bullet seating die to the reloading press, tightening it as required.
- Insert the closefitting seating stem into the die, ensuring it is properly aligned.

2. Usage

- Prepare your cartridge case and bullet according to standard reloading practices.
- Insert the cartridge case into the die, ensuring it is fully seated.
- Place the bullet on top of the cartridge case.
- Slowly and evenly operate the reloading press to push the bullet into the case.
- Monitor the seating depth to ensure it meets your specifications.
- Once completed, remove the seated cartridge from the die and inspect it for proper alignment and depth.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the die in regular household waste. Instead, consult local guidelines for proper disposal.

of metal and reloading equipment.
