

# TYPE S BUSHING FULL DIES - 22-250 REMINGTON BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

## Attributes

- Name: [22-250 REMINGTON BUSHING FULL LENGTH TYPE S DIE](#)

# Safety Instruction Guide for TYPE S BUSHING FULL DIES 22250 REMINGTON

## Introduction

Thank you for choosing the TYPE S BUSHING FULL DIES 22250 REMINGTON. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the product to minimize risks and ensure a safe experience.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in this manual.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for signs of wear or damage before use.
- Be aware of your surroundings and ensure that the working area is clean and free of distractions.
- Follow all local laws and regulations regarding ammunition reloading and usage.

## Specific Safety Precautions for Use

- **Handling:** Always handle the dies with care to avoid damage. Use gloves if necessary to prevent oils from your hands from contaminating the product.
- **Setup:** Ensure that the die is securely mounted in the press before use. Loose equipment can lead to accidents.
- **Bushing Adjustment:** When adjusting the bushing, make sure the die is not in operation to prevent injury.
- **Decapping Rod:** Adjust the decapping rod only when the die is not in use to avoid accidental activation.
- **Concentricity:** Ensure the bushing is properly centered on the neck of the cartridge case to maintain accuracy and safety.
- **Cleaning:** Regularly clean the die and its components to prevent debris buildup, which can affect performance and safety.
- **Storage:** Store the dies in a dry, safe place when not in use. Avoid exposing them to moisture or extreme temperatures.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the TYPE S BUSHING FULL DIE into your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to avoid any movement during operation.

### 2. Using the Die:

- Insert the cartridge case into the shell holder and raise the ram to engage the die.
- Adjust the bushing position using the decapping rod if necessary. Ensure that the adjustment is made with the die not in operation.
- Perform the resizing operation, ensuring that you maintain control throughout the process.
- After resizing, lower the ram and remove the cartridge case.

### 3. PostUse Maintenance:

- After each use, clean the die and its components to remove any residue.

- Store the die in its designated case or container to protect it from damage.

## **Disposal Instructions**

- Dispose of any damaged or worn components according to local regulations. Do not throw them in regular trash.
- If the product is no longer needed, consider recycling the materials where possible.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the TYPE S BUSHING FULL DIES 22250 REMINGTON, please refer to the manufacturer's website or customer support for assistance. It is recommended to keep the product manual for reference.

By following these safety instructions, you can help ensure a safe and effective reloading experience. Always prioritize safety and consult professionals if you have any doubts about the usage of reloading equipment. Thank you for your attention to these important guidelines.
