

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 22 PPC BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 22 PPC BULLET SEATING DIE

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 22 PPC BULLET SEATING DIE. This product is designed for precision bullet seating and is popular among benchrest shooters. To ensure safe and effective use of this product, it is essential to follow the safety instructions and guidelines outlined in this document.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the bullet seating die.
- Use the die only for its intended purpose as described in this guide.
- Keep the die out of reach of children and vulnerable individuals.
- Always wear appropriate eye protection when using the die.
- Inspect the die and your equipment regularly for any signs of wear or damage.
- Follow proper reloading practices and procedures to minimize risks.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Always use the die in a wellventilated area to avoid inhaling any dust or particles.
- Ensure that the die is securely mounted in a stable reloading press before use.
- Use only compatible cartridge cases and bullets to prevent misalignment and potential hazards.
- Do not exceed the recommended load limits for the cartridges you are working with.
- Never attempt to modify or alter the die in any way.
- Keep your workspace organized and free of clutter to prevent accidents.
- Be cautious of sharp edges on the die and handle it with care to avoid cuts or injuries.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free of debris.
- Securely mount the bullet seating die into the press according to the manufacturer's instructions.
- Adjust the seating stem to the desired depth for bullet seating.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for any defects.
- Place a case into the die, ensuring it is properly aligned.
- Insert the bullet into the case mouth, ensuring it is seated correctly.
- Operate the press to push the bullet into the case, using a smooth and controlled motion.
- After seating, check the overall length of the cartridge to ensure it meets specifications.

Disposal Instructions

- Dispose of any defective or damaged dies in accordance with local regulations.
- Do not throw the die in regular household waste. Instead, check with local waste management facilities for proper disposal methods.

- Recycle any metal components if possible, following local recycling guidelines.

Contact Information for Further Support

For any inquiries or support regarding the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 22 PPC BULLET SEATING DIE, please refer to the manufacturer's contact information provided with your purchase.

By following these guidelines, you can ensure a safe and enjoyable experience with your bullet seating die. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
