

CHAMBER TYPE BULLET SEATER DIES - 270 WINCHESTER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES 270 WINCHESTER

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 270 WINCHESTER. This product is designed to enhance the accuracy of your reloading process. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a safe, dry place when not in use.
- Ensure that all components used with the die are compatible and in good condition.
- Follow all local laws and regulations regarding ammunition reloading.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Supervise inexperienced users and ensure they understand the safety practices.

Specific Safety Precautions for Use

- Ensure the die is securely attached to the reloading press before use.
- Do not exceed the recommended bullet seating depth as specified by the manufacturer.
- Always check for obstructions in the die before inserting cases and bullets.
- Avoid using the die if it is damaged or malfunctioning.
- Do not attempt to modify the die or its components.
- Keep fingers and other body parts clear of moving parts during operation.
- Use only the specified cartridge type (270 Winchester) with this die.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is turned off and unplugged.
- Securely mount the chamber type bullet seater die in the press as per the manufacturer's instructions.
- Adjust the seating stem to the desired depth according to your reloading specifications.

2. Usage

- Inspect the die for cleanliness and proper function before use.
- Insert a cartridge case into the die, ensuring it is fully seated.
- Place the bullet on top of the cartridge case.
- Slowly and steadily lower the seating stem to push the bullet into the case.
- Check the bullet seating depth using a caliper to ensure accuracy.
- Repeat the process for additional rounds, maintaining consistency.

Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local waste disposal regulations.
- Recycle metal components where possible.
- Do not throw away in regular household waste.

Contact Information for Further Support

For any questions regarding the CHAMBER TYPE BULLET SEATER DIES 270 WINCHESTER, please refer to the manufacturer's website or contact their customer support for assistance.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the CHAMBER TYPE BULLET SEATER DIES 270 WINCHESTER. Always prioritize safety and adhere to best practices during use. Thank you for your attention to these important guidelines.
