

CHAMBER TYPE BULLET SEATER DIES - 6.5X47MM LAPUA BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Safety Instructions for CHAMBER TYPE BULLET SEATER DIES 6.5X47MM LAPUA BULLET SEATING DIE

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 6.5X47MM LAPUA BULLET SEATING DIE by L.E. WILSON. This product is designed for precision bullet seating, primarily for benchrest shooting. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure safe handling and usage of the bullet seater.
- Follow all safety precautions to minimize risks associated with reloading ammunition.
- Be aware that this product is intended for use by individuals knowledgeable in firearms and ammunition reloading.
- Always keep this product out of reach of children and unauthorized users.
- Regularly check for updates regarding product recalls or safety alerts through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when working with ammunition and reloading equipment.
- Ensure that the work area is wellventilated and free from distractions.
- Never use the bullet seater with damaged or defective components.
- Avoid using excessive force when seating bullets to prevent injury or equipment damage.
- Keep hands and body clear of the bullet seating area during operation.
- Do not attempt to modify or alter the bullet seater in any way.

Instructions for Installation and Usage

1. Installation:

- Ensure the bullet seater die is clean and free from debris before installation.
- Securely attach the die to the reloading press according to the manufacturer's instructions.
- Adjust the seating stem to the desired depth for bullet seating.

2. Usage:

- Prepare the cartridge case by ensuring it is clean and properly sized.
- Insert the cartridge case into the die, ensuring it is fully seated.
- Place the bullet on top of the cartridge case.
- Slowly and steadily operate the press to push the bullet into the case. Ensure the bullet is aligned properly throughout the process.
- After seating, carefully remove the completed cartridge from the die.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away the bullet seater in regular household waste.
- Check with local waste management authorities for proper disposal methods of reloading equipment.

Contact Information for Further Support

For any inquiries or safety concerns regarding the CHAMBER TYPE BULLET SEATER DIES, please refer to the manufacturer's contact information provided on the product packaging or visit the manufacturer's official website.

Thank you for your attention to these safety instructions. Your safety and the safe use of this product are our top priorities.
