

CHAMBER TYPE BULLET SEATER DIES - 204 RUGER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

CHAMBER TYPE BULLET SEATER DIES 204 RUGER BULLET SEATING DIE Safety Instructions

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 204 RUGER BULLET SEATING DIE by L.E. WILSON. This product is designed for precision bullet seating and is favored by benchrest shooters for its accuracy. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always handle the bullet seating die with care to avoid injury.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Inspect the die regularly for any signs of wear or damage before use.
- Use the die only for its intended purpose as described in this guide.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Ensure that the workspace is clean and free from clutter to avoid accidents.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, during use.
- Be aware of your surroundings and avoid distractions while operating the die.
- Do not exceed the recommended specifications for the 204 Ruger cartridge when using this die.
- Always doublecheck the alignment of the bullet and cartridge case before seating.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is compatible with the 7/8 inch to 14 bullet seating die.
- Securely mount the bullet seating die into the reloading press according to the manufacturer's instructions.
- Adjust the seating stem to the desired depth for bullet seating.

2. Usage

- Prepare your cartridge cases according to standard reloading practices.
- Insert a cartridge case into the die, ensuring it is properly aligned.
- Place a bullet on top of the cartridge case.
- Slowly lower the seating stem to push the bullet into the case, ensuring that it is seated straight.
- Inspect the seated bullet for proper alignment and depth.

Disposal Instructions

- Dispose of any spent casings, unused components, or packaging in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash. Check local guidelines for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the CHAMBER TYPE BULLET SEATER DIES 204 RUGER BULLET SEATING DIE, please refer to the contact information provided on the product packaging or the manufacturer's website.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your CHAMBER TYPE BULLET SEATER DIES 204 RUGER BULLET SEATING DIE. Always prioritize safety and consult the appropriate resources for any additional information. Thank you for choosing our product. Happy reloading!
