

# TYPE S BUSHING NECK DIES - TYPE S BUSHING NECK DIE 22-250 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

## Attributes

- Name: [TYPE S BUSHING NECK DIE 22-250 REM](#)

# Safety Instruction Guide for TYPE S BUSHING NECK DIES 22250 REM

## Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES 22250 REM. This guide provides important safety information and instructions for the safe use of this product. Please read this guide carefully to ensure proper handling and to minimize any risks associated with the use of the die.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this product.
- Always wear appropriate safety gear, including safety glasses, when using reloading dies.
- Keep the work area clean and organized to avoid accidents.
- Store the die in a safe place, out of reach of children and pets.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all local regulations and guidelines regarding ammunition reloading.

## Specific Safety Precautions for Use

- Use only the recommended sizing bushings with this die to ensure proper operation.
- Do not exceed the recommended pressure limits when reloading ammunition.
- Ensure that the die is securely mounted to the reloading press before use.
- Avoid placing hands or fingers near moving parts during operation.
- If you experience any unusual noises or resistance while using the die, stop immediately and inspect for issues.
- Be cautious when handling fired brass, as it may be hot or have sharp edges.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is turned off and unplugged.
- Select the appropriate sizing bushing for your desired neck size.
- Insert the sizing bushing into the die and secure it in place.
- Attach the die to the reloading press according to the manufacturer's instructions.
- Adjust the decapping rod to the desired position.

### 2. Usage:

- Place an empty case into the shell holder of the reloading press.
- Pull the handle of the press to bring the case into contact with the die.
- If resizing only a portion of the neck, adjust the decapping rod accordingly.
- Once the resizing is complete, carefully remove the case from the shell holder.
- Inspect the resized case for proper neck tension and concentricity.

### 3. PostUsage:

- Clean the die after each use to remove any debris or residue.
- Store the die in its original packaging or a secure container to prevent damage.

## **Disposal Instructions**

- Dispose of any damaged or wornout parts in accordance with local regulations.
- Do not dispose of the die or its components in regular household waste.
- Consider recycling options for metal components where applicable.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the TYPE S BUSHING NECK DIES 22250 REM, please refer to the manufacturer's website or customer service for assistance. Ensure that you have the product details ready for a more efficient response.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIES 22250 REM. Always prioritize safety and adhere to best practices while handling reloading equipment. Thank you for your attention to these important safety measures.
