

TYPE S BUSHING NECK DIES - TYPE S BUSHING NECK DIE 223 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES TYPE S BUSHING NECK DIE 223 REM

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIE 223 REM. This product is designed to provide reloaders with precise control over case neck sizing and tension. This safety instruction guide outlines important safety guidelines and precautions to ensure safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Always handle the die with care to avoid injury or damage.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- If you notice any defects or irregularities, discontinue use immediately and seek assistance.
- Familiarize yourself with the safety features and operational instructions before attempting to use the die.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using the die.
- Ensure that the work area is clean, dry, and welllit.
- Do not exceed the recommended specifications for case neck sizing.
- Avoid using excessive force while resizing cases, as this may lead to accidents or damage.
- Be cautious when handling sharp tools and components associated with the die.
- Store the die in a secure location when not in use to prevent unauthorized access.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the work area is adequately prepared and all necessary tools are available.
- Gather the required components, including the die, sizing bushing, and decapping rod.

2. Installation:

- Insert the Type S Bushing Neck Die into the reloading press according to the manufacturer's instructions.
- Secure the die in place to prevent movement during operation.
- Select the appropriate sizing bushing based on the desired neck tension and size.

3. Usage:

- Adjust the decapping rod as needed to position the bushing for resizing.
- If resizing only a portion of the neck length, ensure proper alignment before proceeding.
- Insert the case into the die and apply even pressure to resize the neck.
- After resizing, carefully remove the case from the die.
- Clean the die and components after each use to maintain optimal performance.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die or its components in regular household waste.
- Contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please reach out to your local retailer or manufacturer. Ensure you have the product details at hand for efficient assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIE 223 REM. Always prioritize safety and compliance with local regulations when using this product.
