

CHAMBER TYPE BULLET SEATER DIES - 243 WINCHESTER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

CHAMBER TYPE BULLET SEATER DIES 243

WINCHESTER Safety Instruction Guide

Introduction

Thank you for choosing the Chamber Type Bullet Seater Dies for your reloading needs. This product is designed to enhance the accuracy of your ammunition by providing precise bullet seating. To ensure your safety and the optimal performance of this product, please read and follow the safety guidelines outlined in this document.

General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that your workspace is clean and organized to prevent accidents.
- Keep this product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the die.
- Familiarize yourself with the product and its functions before use.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- **Hazard Identification:** The use of this die involves handling sharp objects and potential exposure to gunpowder and primers.
- **Avoiding Hazards:**
 - Always use the die in a wellventilated area to minimize inhalation of any dust or fumes.
 - Do not eat, drink, or smoke while using the die or handling components.
 - Ensure that all components are compatible with the 243 Winchester caliber to prevent malfunctions.
- **Age Restrictions:** This product is intended for use by individuals aged 18 years and older. Minors should only use the product under adult supervision.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components, including the die, bullet seating stem, and cartridge cases.
- Ensure your reloading press is securely mounted and stable.

2. Installation:

- Thread the bullet seating die into your reloading press according to the manufacturer's instructions.
- Adjust the die to the appropriate height for your cartridge cases.

3. Usage:

- Place a cartridge case into the die.
- Insert a bullet into the case mouth.
- Slowly lower the seating stem to push the bullet into the case, ensuring it is seated to the desired depth.
- Inspect the seated bullet for proper alignment and depth.
- Repeat the process for additional cartridges.

4. PostUsage:

- After use, clean the die to remove any residue.
- Store the die in a safe and dry location.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of gunpowder or primers in regular waste. Contact local hazardous waste disposal facilities for guidance.

Contact Information for Further Support

For any safety inquiries or support regarding this product, please refer to the manufacturer's contact details provided with your product packaging. It is important to have access to a reliable source for assistance and information.

Thank you for your attention to these safety instructions. Enjoy your reloading experience with the Chamber Type Bullet Seater Dies 243 Winchester, and always prioritize safety.
