

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 30-06 SPRINGFIELD BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 3006 SPRINGFIELD BULLET SEATING DIE Safety Instructions

Introduction

Thank you for choosing the L.E. Wilson Chamber Type Bullet Seater Die for your reloading needs. This product is designed for precision and accuracy in bullet seating. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always follow the manufacturer's instructions for use and maintenance.
- Ensure that the die is compatible with your specific cartridge and reloading equipment.
- Store the die in a safe, dry place away from children and unauthorized users.
- Regularly check the die for wear and damage. Do not use if damaged.
- Be aware of your surroundings when using reloading equipment to avoid accidents.
- Always wear appropriate safety gear, such as safety glasses and gloves, when handling ammunition and reloading components.

Specific Safety Precautions for Use

- Ensure that you are using the die in a wellventilated area to avoid inhaling any potentially harmful substances.
- Do not exceed the recommended load specifications for your cartridges.
- Keep all reloading components, including powder and primers, stored securely and out of reach of children.
- Avoid distractions while reloading to maintain focus and precision.
- Never point the die at yourself or others during use.
- If you experience any unusual behavior from your reloading equipment, stop using it immediately and consult a qualified technician.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Clean the die and the press threads before installation.
- Screw the bullet seater die into the press until it is snug but do not overtighten.
- Adjust the die to the desired seating depth using the seating stem.

2. Usage:

- Prepare your cartridge case by ensuring it is clean and free of obstructions.
- Insert the bullet into the case mouth.
- Position the cartridge in the die and lower the press handle to seat the bullet.
- Check the seating depth using a caliper to ensure it meets your specifications.
- Repeat the process for each cartridge, maintaining consistency in technique.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not throw away the die in regular household waste.
- Check with local waste management authorities for proper disposal methods for reloading components.

Contact Information for Further Support

For any safety inquiries or support regarding the L.E. Wilson Chamber Type Bullet Seater Die, please refer to the manufacturer's contact information provided with your product.

Conclusion

By following these safety instructions, you can ensure a safe and efficient reloading process with the L.E. Wilson Chamber Type Bullet Seater Die. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important guidelines.
