

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6.5X55MM SWEDE BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

CHAMBER TYPE BULLET SEATER DIES L.E. WILSON

6.5X55MM SWEDE BULLET SEATING DIE Safety

Instruction Guide

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6.5X55MM SWEDE BULLET SEATING DIE. This product is designed for precision bullet seating and is favored by benchrest shooters for its accuracy and reliability. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always ensure that the bullet seating die is used in accordance with the manufacturer's instructions.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Inspect the die regularly for any signs of wear or damage before use.
- Ensure that you are using the die with compatible cartridges as specified in the product description.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading materials.
- Be aware of your surroundings and ensure that you are in a safe environment when using the die.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Risk of injury from improper handling of the die.
- Potential for accidents if used with incompatible cartridges.
- Risk of damage to the die if not maintained properly.

- **Instructions for Avoiding Hazards:**

- Always handle the die with care and follow the installation instructions closely.
- Do not force the bullet into the cartridge case; ensure proper alignment before seating.
- Avoid distractions while using the die to maintain focus on the task.
- Do not use the die if you are fatigued or under the influence of substances that impair your judgment.

- **AgeRelated Warnings:**

- This product is intended for use by individuals who are at least 18 years old.
- Ensure that younger individuals are supervised if they are present during the use of this product.

Instructions for Installation and Usage

- **Installation:**

1. Ensure the reloading press is securely mounted and stable.
2. Insert the bullet seating die into the reloading press according to the manufacturer's instructions.
3. Tighten the die securely to prevent movement during operation.

- **Usage:**

1. Prepare your cartridge case and bullet according to standard reloading practices.
2. Place the cartridge case into the die, ensuring proper alignment.
3. Use the closefitting seating stem to push the bullet straight into the case.
4. Check for proper seating depth and alignment after each operation.
5. Repeat the process for additional cartridges, ensuring consistent technique for accuracy.

Disposal Instructions

- Dispose of any unused or damaged reloading materials in accordance with local regulations.
- Do not throw the die or any components in regular household waste.
- Contact your local waste management authority for guidance on safe disposal methods.

Contact Information for Further Support

For any safety inquiries or support regarding the use of this product, please refer to the manufacturer's contact information provided with your purchase. It is important to have access to assistance for any questions or concerns you may have.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience while using the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6.5X55MM SWEDE BULLET SEATING DIE. Always prioritize safety and compliance with applicable regulations to enjoy the full benefits of this precision tool.
