

TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 308 WIN

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 308 WIN

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIE for your reloading needs. This guide provides important safety information to ensure the safe use of this product. Please read and understand all instructions before use.

General Safety Guidelines

- Ensure safe use of all nonfood products, including new technologies and online purchases.
- Be aware of risks not addressed by other EU laws.
- Regularly check for product recalls and updates on the EU's Safety Gate platform.
- Report any unsafe products or accidents to the relevant authorities.
- Remember that online shopping platforms must meet the same safety requirements as physical stores.
- Extra safeguards are in place for vulnerable groups, such as children.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when working with reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Ensure that all tools and equipment are in good working condition before use.
- Store the die and all reloading components out of reach of children and pets.
- Do not exceed the recommended load limits for the die.
- Be cautious of sharp edges and moving parts during operation.
- Follow all manufacturer guidelines for the use of the die to avoid injury.

Instructions for Installation and Usage

1. Installation of the Die:

- Ensure that your reloading press is securely mounted.
- Remove the existing die from the press, if applicable.
- Carefully screw the TYPE S BUSHING NECK DIE into the press until it is snug. Do not overtighten.
- Insert the sizing bushing of your choice into the die.

2. Using the Die:

- Adjust the decapping rod to the desired position, allowing for neck resizing as needed.
- Place a clean, empty cartridge case into the shell holder of the press.
- Pull the handle of the press to resize the neck of the case.
- Inspect the resized case for concentricity and proper neck tension.
- Repeat the process for additional cases as needed.

3. Decapping:

- The decapping rod is supplied with a standard size button for ease of use.
- For those who sort and/or turn case necks, the die allows for neck sizing without the size button.

Disposal Instructions

- Dispose of any unused or defective components according to local regulations.
- Do not dispose of the die in regular household waste; check for local recycling options.
- Ensure that all hazardous materials, such as spent primers, are disposed of properly.

Contact Information for Further Support

For any safety inquiries or further support regarding the TYPE S BUSHING NECK DIE, please refer to the manufacturer's contact details provided with the product. Always ensure that you have the most current information regarding safety recalls and updates.

Thank you for prioritizing safety in your reloading practices. Enjoy your reloading experience with the TYPE S BUSHING NECK DIE!
