

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6MM BR BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

- Name: [L.E. WILSON 6MM BR BULLET SEATING DIE](#)

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM BR BULLET SEATING DIE

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM BR BULLET SEATING DIE. This product is designed for precision bullet seating and is favored by benchrest shooters for its accuracy. To ensure safe usage and compliance with EU regulations, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that all users are familiar with the operation of bullet seating dies.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the die and all related equipment out of the reach of children and unauthorized users.
- Store the die in a dry, secure location when not in use to prevent damage and unauthorized access.
- Regularly inspect the die for wear or damage before use to ensure safe operation.

Specific Safety Precautions for Use

- Use the die only for its intended purpose: seating bullets in 6mm BR cartridges.
- Avoid using excessive force when seating bullets; this can lead to misalignment or damage.
- Ensure that the bullet and cartridge case are compatible with the die specifications.
- Do not attempt to modify or alter the die in any way; this may compromise safety and performance.
- Always follow the manufacturer's instructions for use and maintenance.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Clean the die and remove any protective coatings or debris.
- Screw the die into the reloading press until it is snug but do not overtighten.
- Adjust the seating stem according to the bullet length you are using.

2. Usage:

- Insert a clean cartridge case into the die.
- Place the bullet on top of the cartridge case.
- Slowly lower the seating stem to push the bullet into the case.
- Check alignment visually to ensure the bullet is seated straight.
- Repeat the process for each cartridge, monitoring for any signs of misalignment or resistance.

Disposal Instructions

- Dispose of any damaged or worn parts according to local regulations.
- Do not throw the die in regular household waste. Instead, check for local recycling programs or hazardous waste disposal facilities.
- Ensure that all packaging materials are disposed of responsibly, following local recycling guidelines.

Contact Information for Further Support

For questions about the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM BR BULLET SEATING DIE, please refer to the manufacturer's website or customer service resources for assistance. Always ensure that you have the product details available when seeking support.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to safety and compliance with EU regulations.
