

# CHAMBER TYPE BULLET SEATER DIES - 308 WINCHESTER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES 308 WINCHESTER

## Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 308 WINCHESTER. This product is designed for precision bullet seating, ensuring accuracy for your reloading needs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle the die with care and keep it out of reach of children.
- Use the bullet seater die only for its intended purpose as described in this guide.
- Ensure that your workspace is clean and free from distractions when using the die.
- Wear appropriate safety gear, including eye protection, when reloading ammunition.
- Familiarize yourself with the specific hazards associated with reloading and take necessary precautions.

## Specific Safety Precautions for Use

- Ensure the die is compatible with 308 Winchester cartridges before use.
- Inspect the die for any damage or wear before each use. Do not use if damaged.
- Do not exceed the recommended load data provided by reputable sources.
- Keep fingers and other body parts away from moving parts during operation.
- Use the die in a wellventilated area to avoid inhaling any fumes or dust.

## Instructions for Installation and Usage

### 1. Installation

- Secure the die in a reloading press that is compatible with 7/8 inch to 14 threads.
- Ensure the die is tightened properly to prevent movement during operation.
- Adjust the seating stem according to the bullet length specifications.

### 2. Usage

- Place the cartridge case in the die, ensuring it is seated properly.
- Insert the bullet into the case mouth, ensuring it is aligned with the case.
- Slowly activate the reloading press to push the bullet into the case using the seating stem.
- Check the overall length of the cartridge after seating to ensure it meets specifications.

## Disposal Instructions

- Dispose of any unused or damaged bullets and cartridges in accordance with local regulations.
- Do not dispose of the die in regular household waste. Follow local guidelines for the disposal of metal products.
- If the product is no longer usable, consider recycling components where possible.

## Contact Information for Further Support

For questions regarding safety, usage, or product issues, please refer to the manufacturer's website or customer service for assistance.

## Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the CHAMBER TYPE BULLET SEATER DIES 308 WINCHESTER. Always prioritize safety and consult with experts if you have any uncertainties regarding the use of this product. Thank you for your attention to safety.
