Safety Instruction Guide for Redding Full Length Die Sets

Introduction

Thank you for choosing the Redding Full Length Die Set for your reloading needs. This guide provides essential safety instructions and recommendations to ensure safe and effective use of the product. Please read this guide thoroughly before using the die set.

General Safety Guidelines

- Always handle the die set with care to avoid injury.
- Ensure that the die set is used in a wellventilated area to minimize exposure to any dust or particles generated during reloading.
- Keep the die set out of reach of children and pets to prevent accidents.
- Wear appropriate safety gear, such as safety glasses and gloves, when using the die set.
- Be aware of your surroundings and ensure that the workspace is clean and free of obstructions.

Specific Safety Precautions for Use

- Before using the die set, carefully read all instructions provided by the manufacturer.
- Inspect the die set for any signs of damage or wear before each use. Do not use if damaged.
- Use only the recommended cartridge types for this die set (6 mm BR Norma).
- Ensure that the reloading press is securely mounted and stable before beginning the reloading process.
- Follow all safety guidelines related to the handling and storage of reloading components, including powder and primers.
- Always keep your fingers clear of the die opening when operating the reloading press.

Instructions for Installation and Usage

1. Installation:

- Securely mount the reloading press to a stable work surface.
- Follow the manufacturer's instructions to install the full length sizing die and seating die into the reloading press.
- Ensure that each die is properly tightened to prevent movement during use.

2. Usage:

- Prepare your workspace by gathering all necessary reloading components and tools.
- Begin with the full length sizing die to resize the brass cases. Follow the specific instructions provided with the die set for proper sizing techniques.
- After sizing, use the seating die to seat the bullets into the cases. Again, refer to the instructions for the correct adjustments and techniques.
- Regularly check the overall length of the loaded cartridges to ensure they meet your specifications.

Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Do not dispose of the die set in regular household waste. Instead, check with local waste management authorities for proper disposal methods.
- Ensure that all hazardous materials, such as primers and gunpowder, are disposed of safely and

responsibly.

Contact Information for Further Support

For any inquiries regarding safety or usage of the Redding Full Length Die Set, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Redding Full Length Die Set. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important safety measures.
