# Safety Instruction Guide for Redding Neck Sizing Die Set 7mm BR Rem

## Introduction

Thank you for choosing the Redding Neck Sizing Die Set for your reloading needs. This guide provides essential safety instructions to ensure the safe use of this product. Please read and follow these guidelines carefully to avoid accidents and injuries.

## General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that you are familiar with the operation of your reloading press and dies before use.
- Keep the workspace clean and organized to prevent accidents.
- Store all reloading components, including dies, out of reach of children and pets.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Do not consume food or beverages in the reloading area to avoid contamination.
- Regularly inspect your equipment for wear or damage. Replace any damaged components immediately.

## Specific Safety Precautions for Use

- Ensure that the die set is compatible with the 7mm BR Remington cartridge before use.
- Always use the neck sizing die to size only the neck of the cartridge, avoiding oversizing which could lead to dangerous malfunctions.
- When using the decapping rod assembly, ensure that it is properly seated to prevent accidents during operation.
- Never exceed the recommended load data for your cartridges.
- Use the proper bullet guide and seating plug provided to ensure accurate bullet seating.
- Be aware of the crimp ring's function and use it appropriately to avoid bullet setback and potential accidents.
- Always keep your hands clear of moving parts when operating the reloading press.

## Instructions for Installation and Usage

### 1. Installation of the Neck Sizing Die:

- Clean the die thoroughly before first use.
- Install the neck sizing die into your reloading press according to the manufacturer's instructions.
- Adjust the die to the correct height for your cartridge by following the provided guidelines.

### 2. Using the Neck Sizing Die:

- Insert the cartridge case into the shell holder of the reloading press.
- Raise the ram to bring the case into contact with the die.
- Ensure the decapping rod is properly positioned to remove the spent primer.
- Lower the ram to complete the sizing process.

### 3. Using the Seating Die:

- Install the seating die in the same manner as the neck sizing die.
- Use the bullet guide to correctly position the bullet for seating.
- Adjust the seating depth according to your specifications.
- Raise the ram to seat the bullet into the case.

#### 4. Final Checks:

- Inspect each completed cartridge for defects before use.
- Ensure that all components are securely seated and free from obstructions.

## Disposal Instructions

- Dispose of any damaged or unusable reloading components in accordance with local regulations.
- Do not throw away reloading components in regular trash. Instead, check with local authorities for proper disposal methods.

## Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the EUbased contact point provided on the product packaging or the manufacturer's website.

Remember, safety is paramount when reloading ammunition. Always follow these guidelines to ensure a safe and enjoyable reloading experience.
