

PRECISION MIC CARTRIDGE HEADSPACE TOOL - RCBS 300 WINCHESTER MAGNUM PRECISION MIC

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

These micrometer cartridge headspace tools will enable you to set up full length sizing dies for the precise amount of shoulder bump you wish. Precision Mic gages are initially calibrated on a once-fired case, and the micrometer will read shoulder set back variation from initial set-up. Each Precision Mic kit also includes a bullet seating depth tool for initial seater die set-up.

Safety Instruction Guide for PRECISION MIC CARTRIDGE HEADSPACE TOOL RCBS 300 WINCHESTER MAGNUM PRECISION MIC

Introduction

Thank you for choosing the PRECISION MIC CARTRIDGE HEADSPACE TOOL by RCBS. This tool is designed to help you achieve precise measurements for your reloading needs. It is essential to use this tool safely and correctly to avoid any potential hazards. This guide provides important safety instructions and usage guidelines to ensure your experience is safe and effective.

General Safety Guidelines

- Always read and understand the instruction manual before using the tool.
- Ensure the tool is used in a wellventilated area to avoid inhalation of any particles.
- Keep the tool away from children and unauthorized users.
- Inspect the tool for any damage before each use. Do not use if damaged.
- Store the tool in a safe, dry place when not in use.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Avoid wearing loose clothing or jewelry that may get caught in the tool.
- Ensure that all adjustments are made with the tool disconnected from any power source.
- Use only compatible cases as specified in the product instructions.
- Never exceed the recommended specifications for the tool.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the tool is clean and free of debris.
- Gather all necessary components, including the bullet seating depth tool included in your kit.

2. Setting Up the Tool:

- Place the tool on a stable, flat surface.
- Calibrate the micrometer using a oncefired case to ensure accurate measurements.
- Adjust the micrometer to the desired shoulder bump setting.

3. Using the Tool:

- Insert the case into the tool and ensure it is seated correctly.
- Take measurements carefully, noting any variations in shoulder set back.
- Use the bullet seating depth tool for initial seater die setup as needed.

4. PostUsage:

- After use, clean the tool to remove any residue or debris.
- Store the tool in its original packaging or a designated storage area to protect it from damage.

Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- If the tool is damaged beyond repair, contact your local waste management facility for proper disposal methods.
- Do not dispose of the tool in regular household waste.

Contact Information for Further Support

- For any safety inquiries or further assistance, please reach out to your local distributor or manufacturer's contact point in the EU.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the PRECISION MIC CARTRIDGE HEADSPACE TOOL RCBS 300 WINCHESTER MAGNUM PRECISION MIC. Thank you for your attention to safety and for using our product responsibly.
