

# PRECISION MIC CARTRIDGE HEADSPACE TOOL - RCBS 308 WINCHESTER PRECISION MIC

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

These micrometer cartridge headspace tools will enable you to set up full length sizing dies for the precise amount of shoulder bump you wish. Precision Mic gages are initially calibrated on a once-fired case, and the micrometer will read shoulder set back variation from initial set-up. Each Precision Mic kit also includes a bullet seating depth tool for initial seater die set-up.

## Attributes

# **Safety Instruction Guide for PRECISION MIC CARTRIDGE HEADSPACE TOOL RCBS 308 WINCHESTER PRECISION MIC**

## **Introduction**

Thank you for choosing the PRECISION MIC CARTRIDGE HEADSPACE TOOL RCBS 308 WINCHESTER PRECISION MIC. This guide provides essential safety instructions and guidelines for the proper use of this product. Please read this document carefully to ensure safe and effective operation.

## **General Safety Guidelines**

- Always use the tool in accordance with the manufacturer's instructions.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool for any damages or defects before use. Do not use if damaged.
- Ensure that your workspace is clean and free from clutter to avoid accidents.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, when using the tool.
- Report any unsafe conditions or accidents to the relevant authorities.

## **Specific Safety Precautions for Use**

- Ensure that the micrometer is calibrated correctly before use.
- Use only oncefired cases for initial calibration.
- Avoid excessive force when adjusting the micrometer to prevent damage.
- Do not modify the tool in any way; alterations can lead to unsafe conditions.
- Store the tool in a safe and dry place when not in use.

## **Instructions for Installation and Usage**

### **1. Calibration:**

- Begin with a oncefired case to calibrate the micrometer.
- Adjust the micrometer to read the shoulder set back variation from the initial setup.

### **2. Setting Up Full Length Sizing Dies:**

- Use the calibrated micrometer to set up your full length sizing dies.
- Adjust the shoulder bump according to your specific requirements.

### **3. Using the Bullet Seating Depth Tool:**

- The Precision Mic kit includes a bullet seating depth tool.
- Use this tool for initial seater die setup to ensure accurate bullet seating.

### **4. Regular Maintenance:**

- Clean the tool regularly to maintain accuracy and performance.
- Store the tool in its original packaging or a protective case to avoid damage.

## **Disposal Instructions**

- Dispose of the tool in accordance with local regulations.

- Do not dispose of the tool in household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to the manufacturer's contact details provided with your product packaging.

By following the guidelines and instructions outlined in this manual, you can ensure the safe and effective use of the PRECISION MIC CARTRIDGE HEADSPACE TOOL RCBS 308 WINCHESTER PRECISION MIC. Thank you for your attention to safety.
