

BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC. 223 WSSM BUSHING BUMP NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

Attributes

- Name: [FORSTER PRODUCTS, INC. 223 WSSM BUSHING BUMP NECK DIE](#)

Safety Instruction Guide for BUSHING BUMP NECK SIZING DIES

Introduction

Thank you for choosing the BUSHING BUMP NECK SIZING DIES from Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Keep the working area clean and organized to prevent accidents.
- Store the dies in a safe place, out of reach of children and pets.
- Regularly inspect the product for any signs of damage or wear. Do not use damaged dies.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Do not exceed the recommended bushing size; choose a bushing approximately .002 inch smaller than the loaded round measures at the case neck.
- Only use Forster bushings with this die; other brands may not be compatible and could lead to unsafe conditions.
- Avoid using the dies if you are fatigued or under the influence of substances that may impair judgment.
- When decapping, ensure that the case is securely held to prevent accidental slips.
- Do not attempt to modify the dies or use them for purposes other than neck sizing.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the BUSHING BUMP NECK SIZING DIE, appropriate bushings, and a reloading press.
- Ensure your workspace is clean and well lit.

2. Installation:

- Attach the BUSHING BUMP NECK SIZING DIE to your reloading press according to the manufacturer's instructions.
- Ensure that the die is securely fastened and aligned properly.

3. Usage:

- Select the appropriate bushing size based on the specifications provided.
- Insert the case into the die and ensure it is properly positioned.
- Operate the press to size the neck of the case without affecting the body.
- After sizing, remove the case from the die and check for proper fit.

4. Decapping:

- Use the included decapping assembly without an expander ball for this process.
- Ensure the case is secure while decapping to prevent accidents.

Disposal Instructions

- Dispose of any damaged or worn dies according to local regulations.
- Do not throw the dies in regular household trash; check for recycling programs in your area.
- Ensure that all components are disposed of safely to prevent environmental harm.

Contact Information for Further Support

For safety inquiries or further assistance, please reach out to the designated EU contact point for Forster Products, Inc. Ensure you have the product details ready for reference.

Additional Notes

- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

By following these guidelines, you can ensure a safe and effective experience with your BUSHING BUMP NECK SIZING DIES. Thank you for your attention to safety and compliance.
