

BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC. 243 WSSM BUSHING BUMP NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

BUSHING BUMP NECK SIZING DIES FORSTER PRODUCTS, INC. Safety Instruction Guide

Introduction

Thank you for choosing the Bushing Bump Neck Sizing Dies from Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before using the dies to ensure proper handling and operation.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure that the product is used only for its intended purpose.
- Regularly inspect the dies for any signs of wear or damage before use.
- Keep the dies out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the relevant authorities.
- Stay informed about any product recalls or safety alerts through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Use only Forster bushings with these dies. Other brands (e.g., Redding or Wilson) are not compatible and may cause malfunction or accidents.
- When selecting a bushing size, choose one that is approximately .002 inch smaller than the measurement of a loaded round at the case neck to ensure proper fit and function.
- Always wear appropriate safety gear, such as safety glasses, when operating the dies to protect against any potential debris or accidents.
- Ensure that the work area is clean and free from obstructions to prevent accidents during the resizing process.
- Avoid using excessive force when operating the dies to prevent damage and ensure safety.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the Bushing Bump Neck Sizing Die, appropriate bushings, and a reloading press.
- Ensure that your work area is welllit and organized.

2. Installation:

- Secure the Bushing Bump Neck Sizing Die in the reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during operation.

3. Using the Die:

- Insert the case into the die, ensuring it is positioned correctly.
- Adjust the headspace length as needed without sizing the body of the case.
- Use the decapping assembly without an expander ball to maintain control over the internal neck diameter.
- Carefully operate the press to resize the neck of the case, following the manufacturer's guidelines.

4. PostUse:

- After use, clean the dies with a soft cloth to remove any debris or residue.
- Store the dies in a safe and dry location away from children and pets.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of in regular household waste if the product is hazardous; instead, follow proper hazardous waste disposal procedures.

Contact Information for Further Support

For safety inquiries, product information, or assistance, please refer to the manufacturer's contact details provided with the product packaging or visit their official website.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Bushing Bump Neck Sizing Dies. Thank you for your attention to safety and for choosing Forster Products, Inc.
