

# BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC.

## 22-250 REMINGTON BUSHING BUMP NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 22-250 REMINGTON BUSHING BUMP NECK DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

# Safety Instruction Guide for BUSHING BUMP NECK SIZING DIES

## Introduction

Thank you for choosing the Bushing Bump Neck Sizing Dies from Forster Products, Inc. This guide provides essential safety information to ensure the safe and effective use of this product. Please read all instructions carefully before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to resize the neck of 22250 Remington cases.
- Keep the dies and all related tools out of reach of children and vulnerable individuals.
- Regularly inspect the dies for any signs of damage or wear. Do not use damaged dies.
- Always wear appropriate safety gear, such as safety glasses, when using reloading equipment.
- Follow all local laws and regulations regarding the handling and use of ammunition components.

## Specific Safety Precautions for Use

- Do not attempt to modify the dies or use them for purposes other than resizing necks of cases.
- Ensure that the bushing selected is approximately .002 inch smaller than the measured neck diameter of a loaded round.
- Only use Forster bushings with this die; Redding or Wilson bushings are not compatible and could result in unsafe conditions.
- Use caution when handling the decapping assembly to avoid injury.
- Be aware of the potential for sharp edges on the dies and related tools. Handle with care.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Insert the Bushing Bump Neck Die into the press according to the manufacturer's instructions.
- Adjust the die to the desired headspace length without sizing the body of the case.

### 2. Using the Die:

- Select the appropriate Forster bushing based on your case neck measurement.
- Insert the case into the die and operate the press to resize the neck.
- Check the resized neck diameter using appropriate measuring tools to ensure it meets specifications.
- Remove the case and inspect for any signs of damage or improper resizing.

### 3. Decapping:

- Use the decapping assembly to remove the spent primer from the case.
- Ensure that the assembly is correctly aligned to prevent damage during operation.

## Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not discard in regular household waste. Check for local recycling programs or hazardous waste

disposal options.

- Ensure that all packaging materials are disposed of in an environmentally friendly manner.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please reach out to the designated contact point provided with your purchase. Always refer to the latest updates and safety information available through official channels.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with the Bushing Bump Neck Sizing Dies. Always prioritize safety and remain informed about best practices in reloading. Thank you for your attention to these important guidelines.
