

# **BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC.**

## **6MM BR BUSHING BUMP NECK DIE**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

### **Attributes**

# Safety Instruction Guide for Bushing Bump Neck Sizing Dies

## Introduction

Thank you for choosing the Bushing Bump Neck Sizing Dies from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully before using the dies.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this product.
- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment and components.
- Keep the dies and all reloading components out of reach of children and vulnerable individuals.
- Regularly inspect your dies for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- **Compatibility:** Use only Forster bushings with this die. Redding or Wilson bushings are not compatible and may cause malfunction or injury.
- **Bushing Selection:** When selecting a bushing size, choose one that is approximately .002 inch smaller than the measurement of a loaded round at the case neck.
- **Decapping Assembly:** The die includes a decapping assembly without an expander ball. Ensure that you understand how this impacts the sizing process.
- **Headspace Adjustment:** This die is designed to size the case neck and adjust headspace length without resizing the body of the case. Ensure you understand this function to avoid incorrect sizing.
- **Proper Handling:** Always handle the dies carefully to avoid injury. Do not apply excessive force when using the dies.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and components, including the Bushing Bump Neck Sizing Die, Forster bushings, and safety equipment.
- Ensure your reloading press is clean and in good working condition.

### 2. Installation:

- Insert the Bushing Bump Neck Sizing Die into your reloading press according to the manufacturer's instructions.
- Secure the die firmly to prevent movement during operation.

### 3. Bushing Installation:

- Select the appropriate Forster bushing based on your case neck measurement.
- Install the bushing into the die according to the manufacturer's instructions.

### 4. Sizing Process:

- Place the case in the reloading press and raise the ram to engage the die.

- Follow the instructions for adjusting headspace length as needed.
- Carefully lower the ram and remove the sized case from the press.

#### 5. Post Use:

- Clean the die and bushing after each use to maintain performance and longevity.
- Store the dies and bushings in a safe and dry location.

## Disposal Instructions

- Dispose of any worn or damaged dies and bushings in accordance with local regulations.
- Do not dispose of reloading components or materials in regular trash. Follow local guidelines for hazardous waste disposal.

## Contact Information for Further Support

For inquiries related to safety, product support, or additional information, please refer to the contact details provided on the packaging or the official Forster Products, Inc. website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Bushing Bump Neck Sizing Dies. Always prioritize safety and stay informed about best practices in reloading.
