

# BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC. 300 WSM BUSHING BUMP NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 300 WSM BUSHING BUMP NECK DIE](#)

# Safety Instruction Guide for Bushing Bump Neck Sizing Dies

## Introduction

Thank you for choosing the Bushing Bump Neck Sizing Dies from Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before using the dies.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Keep the dies out of reach of children and vulnerable individuals.
- Always wear appropriate eye protection when using reloading equipment.
- Regularly inspect the dies for any signs of damage or wear.
- Follow local laws and regulations regarding ammunition reloading.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls through the EU Safety Gate platform.

## Specific Safety Precautions for Use

### • Hazard Identification

- Risk of injury from improper handling of dies.
- Risk of damage to the firearm if incorrect sizing is applied.
- Potential for eye injury from debris or primer particles.

### • Instructions for Avoiding Hazards

- Always use the dies in a wellventilated area.
- Ensure that the die is securely installed in the reloading press before use.
- Do not attempt to modify the dies in any way.
- Use only Forster bushings with this die to ensure compatibility and safety.
- Select a bushing size that is approximately .002 inch smaller than the loaded round measurement at the case neck.

## Instructions for Installation and Usage

### • Installation

1. Ensure that your reloading press is clean and free of debris.
2. Carefully insert the Bushing Bump Neck Sizing Die into the press.
3. Tighten the die securely to prevent movement during use.
4. Attach the decapping assembly, ensuring it is correctly positioned.

### • Usage

1. Select the appropriate Forster bushing for your case neck size.
2. Place an empty case into the shell holder of the reloading press.
3. Pull the handle to size the neck of the case without affecting the body.
4. After sizing, check the case neck diameter to ensure it meets specifications.
5. Remove the case and repeat the process as necessary.

- **PostUse Care**

- Clean the dies with a soft cloth to remove any residue.
- Store the dies in a dry and safe location, away from children.

## **Disposal Instructions**

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not throw dies in regular household waste.
- Check with local recycling centers for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding the Bushing Bump Neck Sizing Dies, please refer to the product packaging or the manufacturer's website for contact details.

Thank you for prioritizing safety and following these guidelines. Enjoy your reloading experience responsibly!
