

BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC. 308 WINCHESTER BUSHING BUMP NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

Attributes

- Name: [FORSTER PRODUCTS, INC. 308 WINCHESTER BUSHING BUMP NECK DIE](#)

BUSHING BUMP NECK SIZING DIES SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Bushing Bump Neck Sizing Dies from Forster Products, Inc. This guide provides essential safety instructions and usage guidelines to ensure your safety and the optimal performance of the product. Please read this document thoroughly before using the dies.

General Safety Guidelines

- Ensure that the dies are used only for their intended purpose, which is to size the neck of .308 Winchester cases.
- Always inspect the dies for any damage or wear before use. Do not use damaged equipment.
- Keep the dies out of reach of children and unauthorized users.
- Use the dies in a wellventilated area to avoid inhalation of any particles created during the reloading process.
- Follow all local laws and regulations regarding the handling and use of reloading equipment and ammunition.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Risk of injury from improper handling of reloading equipment.
 - Potential for damage to the die if incompatible bushings are used.
- **Avoiding Hazards:**
 - Always use Forster bushings with this die, as other brands may not fit properly and could cause injury or damage.
 - Select a bushing size that is approximately .002 inches smaller than the case neck measurement of a loaded round.
 - Do not attempt to modify the dies or bushings in any way.
- **Age Restrictions:**
 - This product is not intended for use by individuals under the age of 18. Ensure that all users are of legal age and have received proper training in reloading safety.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure that your reloading press is compatible with the Bushing Bump Neck Sizing Die.
 2. Securely mount the die in the press according to the manufacturer's instructions.
 3. Attach the decapping assembly without the expander ball.
- **Usage:**
 1. Select the appropriate Forster bushing based on your case neck measurement.
 2. Insert the case into the die and raise the ram of the reloading press to size the neck.
 3. After sizing, lower the ram and remove the case.

4. Inspect the case neck for proper sizing and ensure it meets your specifications.
5. Repeat the process for additional cases as needed.

Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local regulations for metal disposal.
- Do not dispose of dies in regular household waste. Contact local waste management for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Bushing Bump Neck Sizing Dies, please contact the manufacturer directly. Ensure you have the product details ready for a more efficient response.

Thank you for your attention to these safety instructions. Proper use and care of your Bushing Bump Neck Sizing Dies will help ensure a safe and successful reloading experience.
