

# NECK SIZING DIES - REDDING NECK SIZING DIE 219 DONALDSON WASP

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

# Safety Instruction Guide for Redding Neck Sizing Die 219 Donaldson Wasp

## Introduction

Thank you for choosing the Redding Neck Sizing Die 219 Donaldson Wasp. This product is designed to enhance the accuracy and longevity of your bottleneck cases. To ensure safe and effective use, please read and follow the safety guidelines and instructions outlined in this guide.

## General Safety Guidelines

- Always use the Redding Neck Sizing Die in accordance with the manufacturer's instructions.
- Ensure that the die is compatible with your specific rifle and cartridge.
- Keep the die and all related tools out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Do not attempt to modify or repair the die yourself; contact a professional if repairs are needed.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Only use the neck sizing die for its intended purpose—sizing the necks of bottleneck cases.
- Ensure that your workspace is clean, dry, and free from distractions while using the die.
- Wear appropriate safety gear, including safety glasses, to protect your eyes from debris.
- Handle all tools and materials with care to prevent injury.
- Avoid using the die with cases that have been fired from a different rifle to prevent potential safety hazards.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the neck sizing die into the reloading press according to the manufacturer's instructions.
- Ensure the die is tightened properly to avoid movement during use.

### 2. Usage:

- Prepare your fired cases by cleaning and inspecting them for any damage.
- Insert the case into the die, ensuring it is properly aligned.
- Pull the handle of the reloading press to size the neck of the case. Ensure smooth operation without excessive force.
- Remove the sized case and inspect it for any defects.

### 3. Maintenance:

- After use, clean the die to remove any debris or residue.
- Store the die in a safe, dry place to prevent damage.

## Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local regulations.
- Recycle packaging materials when possible.
- Do not dispose of the die in regular household waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any inquiries regarding the safety and usage of the Redding Neck Sizing Die 219 Donaldson Wasp, please reach out to your local retailer or the manufacturer directly.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we wish you success in your reloading endeavors.
