

# NECK SIZING DIES - REDDING NECK SIZING DIE 30-30 ACKLEY IMP 40

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 30-30 ACKLEY IMP 40](#)
- Manufacturer: [REDDING](#)

# Safety Instruction Guide for Redding Neck Sizing Die 3030 Ackley Imp 40

## Introduction

Thank you for choosing the Redding Neck Sizing Die 3030 Ackley Imp 40. This guide is designed to provide you with essential safety information to ensure the safe and effective use of this product. Please read this guide carefully before using the die.

## General Safety Guidelines

- Ensure that all tools and equipment are in good working condition before use.
- Always wear appropriate safety gear, including eye protection and gloves, when handling reloading equipment.
- Store the dies in a secure place, out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding reloading and ammunition.
- Be aware of your surroundings and ensure that you are in a safe environment when using the die.

## Specific Safety Precautions for Use

- Do not interchange fired cases between different rifles, as neck sizing dies only size the neck and do not adjust the shoulder or body of the case.
- Always check the die and the cases for any signs of damage or wear before use.
- Use the die only for its intended purpose, which is neck sizing of bottleneck cases.
- Ensure that the die is properly installed in the reloading press before use.
- Do not exceed recommended load data when reloading ammunition.
- Keep hands and body clear of moving parts when operating the reloading press.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Remove any previous dies from the press.
- Carefully screw the Redding Neck Sizing Die into the press until it is snug.
- Adjust the die to the desired position according to the manufacturer's instructions.

### 2. Usage:

- Prepare your fired cases by cleaning and inspecting them for damage.
- Place the case into the shell holder of the reloading press.
- Operate the press to size the neck of the case, ensuring that the die is functioning smoothly.
- After sizing, inspect the case to ensure it meets specifications.
- Repeat the process for all cases as needed.

## Disposal Instructions

- Dispose of any damaged or unusable dies according to local regulations.
- Recycle materials when possible to minimize environmental impact.
- Do not throw away dies in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding safety or product performance, please reach out to the manufacturer's customer service or consult the product packaging for further instructions.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience with the Redding Neck Sizing Die 3030 Ackley Imp 40, and always prioritize safety in your reloading practices.
