

CASE TRIMMER - FORSTER PRODUCTS, INC. ORIGINAL CASE TRIMMER

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Case Trimmers](#)

The Forster Case Trimmer is one of the most versatile reloading tools available on the market today. It utilizes an extremely accurate Brown and Sharpe type collet to hold the case. Pilots are used to support the case neck during case trimming. A collet and pilot are needed to operate this trimmer and are sold separately. Trimmer can be used for case length trimming, hollow pointing, neck turning, inside neck reaming, case mouth deburring, and primer pocket reaming (removes military crimps). The trimmer can be powered by a drill or power screwdriver by adding the Forster Power Adapter (#FPA1000). Requires Forster Trimmer Cutter w/Shaft 17 cal for use with .17 cal Pilot.

Forster Case Trimmer Safety Instruction Guide

Introduction

Thank you for choosing the Forster Case Trimmer, a versatile tool designed for precision reloading. This guide provides essential safety instructions to ensure the safe and effective use of your trimmer. Please read this document carefully before using the product.

General Safety Guidelines

- Always use the Forster Case Trimmer in accordance with the manufacturer's instructions.
- Ensure that the trimmer is used in a welllit and clean workspace to avoid accidents.
- Keep the trimmer out of reach of children and vulnerable individuals.
- Regularly inspect the trimmer for any signs of wear or damage before use.
- Do not use the trimmer if it is damaged or malfunctioning.
- Follow all safety guidelines regarding the use of power tools, including the drill or power screwdriver used with the trimmer.
- Be aware of your surroundings and ensure that no one is in the immediate area when operating the trimmer.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the trimmer.

Specific Safety Precautions for Use

- **Collet and Pilot Usage:** Always ensure that the correct collet and pilot are securely attached before operation. These are sold separately and are essential for safe use.
- **Power Source:** When using a drill or power screwdriver, make sure that the Forster Power Adapter (#FPA1000) is properly installed to avoid electrical hazards.
- **Trimming Operations:** Be cautious when performing operations such as case length trimming, hollow pointing, neck turning, and others. Ensure that hands and other body parts are clear of moving parts during operation.
- **Deburring and Reaming:** When performing case mouth deburring or primer pocket reaming, take care to avoid injury from sharp edges.
- **Military Crimps:** When removing military crimps, ensure that the trimmer is stable and that you are using the appropriate pilot to avoid accidents.

Instructions for Installation and Usage

1. Setting Up the Trimmer:

- Choose a stable work surface.
- Attach the collet and pilot that correspond to the case you will be trimming. Ensure they are secure.
- If using a power drill or screwdriver, connect the Forster Power Adapter (#FPA1000) to the trimmer.

2. Using the Trimmer:

- Insert the case into the collet and tighten it securely.
- Select the appropriate trimming operation based on your needs (length trimming, hollow pointing, etc.).
- Power on the drill or screwdriver and begin the trimming process, keeping hands clear of moving parts.
- Once finished, turn off the power tool before removing the case.

3. **PostUse Care:**

- Clean the trimmer after each use to remove any debris or residue.
- Store the trimmer in a safe, dry place out of reach of children.

Disposal Instructions

- Dispose of the Forster Case Trimmer in accordance with local regulations for electronic and mechanical waste.
- Remove any batteries or power sources before disposal if applicable.
- Do not dispose of the trimmer in regular household waste.
