

NT-1000 STANDARD NECK TURNING TOOL - SINCLAIR INTERNATIONAL STANDARD NECK TURNING TOOL WITH HANDLE, NT-1000

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Neck Turning Tools](#)

The Sinclair Model 1000 will uniform the wall thickness of your necks providing consistent bullet grip from case to case and allow the case neck walls to expand uniformly under pressure. This will help improve the consistency of each round and enhance your groups down range. Our standard neck turning tool has served the needs of thousands of handloaders for over two decades. This tool comes complete with our stainless steel universal handle (holds 22 Hornet up to the new magnums) and anodized aluminum neck turner body. The neck turning cutter is made from hand stoned high-speed tool steel and will cut literally thousands of cases before needing replacement. Neck turning tools require the use of Sinclair mandrels which are sold separately or as part of a complete neck turning tool kit.

Safety Instruction Guide for NT1000 Standard Neck Turning Tool

Introduction

Thank you for choosing the NT1000 Standard Neck Turning Tool from Sinclair International. This guide provides essential safety information and instructions to ensure the safe and effective use of the tool. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the tool is used only for its intended purpose, which is neck turning for reloading ammunition.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against metal shavings and debris.
- Keep the workspace clean and organized to prevent accidents.
- Store the tool in a dry, safe location away from children and pets.
- Regularly inspect the tool for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding the use of ammunition reloading tools.

Specific Safety Precautions for Use

- Do not use the neck turning tool if you are tired, distracted, or under the influence of substances that may impair your judgment.
- Ensure that the neck turning cutter is securely attached before use to prevent accidents.
- Use the tool only with compatible Sinclair mandrels, which are sold separately.
- Do not exceed the recommended cutting speeds to avoid damage to the tool and ensure consistent results.
- Always maintain a firm grip on the tool while in use to maintain control.
- If you experience any unusual noise or resistance while using the tool, stop immediately and inspect for issues.

Instructions for Installation and Usage

1. Unpacking the Tool

- Carefully remove the tool from its packaging.
- Check that all components, including the handle and neck turner body, are included and undamaged.

2. Attaching the Handle

- Align the handle with the neck turner body.
- Securely fasten the handle to the neck turner body, ensuring it is tight and stable.

3. Installing the Neck Turning Cutter

- Select the appropriate neck turning cutter for your application.
- Insert the cutter into the neck turner body and tighten it securely.

4. Using the Tool

- Insert the case neck into the Sinclair mandrel.
- Turn the handle slowly and evenly to begin the neck turning process.

- Monitor the cutting action and adjust pressure as needed for optimal results.

5. PostUse Care

- After use, clean the tool to remove any metal shavings or debris.
- Inspect the cutter for wear and replace if necessary.
- Store the tool in its designated location, ensuring it is out of reach of children.

Disposal Instructions

- Dispose of any worn or damaged components in accordance with local regulations.
- Do not dispose of the tool in regular household waste. Check for local recycling programs that accept metal tools.
- Ensure that any hazardous materials (such as oils or lubricants) used with the tool are disposed of properly.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the product packaging for contact information or visit the manufacturer's website for support resources.

By following these safety instructions, you can ensure a safe and effective experience with your NT1000 Standard Neck Turning Tool. Remember to stay informed about safety updates and product recalls through the EU's Safety Gate platform. Thank you for your attention to safety!
