

TYPE S BUSHING FULL DIES - REDDING 243 WINCHESTER IMPROVED 40 BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Safety Instruction Guide for TYPE S BUSHING FULL DIES REDDING 243 WINCHESTER IMPROVED 40 BUSHING FULL LENGTH DIE

Introduction

Thank you for choosing the TYPE S BUSHING FULL DIES REDDING 243 WINCHESTER IMPROVED 40 BUSHING FULL LENGTH DIE. This guide provides essential safety information and instructions to ensure safe and effective use of this product. Please read and follow all instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Avoid using the product if it appears to be damaged or malfunctioning.
- Always wear appropriate safety gear, such as eye protection, when using this product.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Be aware of the potential hazards associated with reloading ammunition, including:
 - Fire hazards from improperly stored components.
 - Injury risks from handling sharp tools and equipment.
 - Risks of misfires or accidents due to improper reloading techniques.
- Ensure that you are familiar with the operation of the die and related equipment before use.
- Use the die in a wellventilated area to avoid inhalation of any dust or particles.
- Do not exceed the recommended load specifications for the cartridge being reloaded.
- Always check that the bushing is properly positioned before beginning the resizing process.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components for reloading.
- Ensure your workspace is clean and free from distractions.

2. Installation:

- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to avoid movement during use.

3. Usage:

- Adjust the decapping rod to set the bushing position as needed.
- Insert the cartridge case into the die and apply consistent pressure to resize.
- Monitor the resizing process to ensure that the neck of the cartridge is resized uniformly.
- Remove the cartridge case and inspect it for any defects or irregularities.

4. PostUsage:

- Clean the die after use to prevent residue buildup.

- Store the die in a safe and dry location when not in use.

Disposal Instructions

- Dispose of any unused components and packaging in accordance with local waste disposal regulations.
- If the product becomes damaged beyond repair, dispose of it responsibly to prevent environmental harm.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of this product, please refer to the manufacturer's contact information provided with your purchase.

By following these guidelines, you can ensure a safe and effective experience with your TYPE S BUSHING FULL DIES REDDING 243 WINCHESTER IMPROVED 40 BUSHING FULL LENGTH DIE. Always prioritize safety and responsible use while reloading ammunition.
