

TYPE S BUSHING FULL DIES - REDDING 17 MACH IV BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Safety Instruction Guide for TYPE S BUSHING FULL DIES REDDING 17 MACH IV BUSHING FULL LENGTH TYPE S DIE

Introduction

Thank you for choosing the Redding Type S Bushing Full Length Sizing Die for your reloading needs. This guide provides essential safety instructions and usage information to ensure a safe and effective experience with your product. Please read this document carefully before using the product.

General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure that your workspace is clean and free of clutter to prevent accidents.
- Keep the die out of reach of children and untrained individuals.
- Use the die only for its intended purpose as described in this guide.
- Regularly inspect the die for any signs of wear or damage before use.
- If you notice any irregularities, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses, when operating the die.
- Ensure that your reloading press is compatible with the Type S Bushing Full Length Sizing Die.
- Avoid using excessive force when resizing cases, as this may damage the die or the cartridge.
- Be cautious when adjusting the decapping rod; ensure it is securely fastened after adjustment.
- Do not attempt to modify the die in any way, as this may compromise safety.
- Always follow the manufacturer's instructions for proper use and maintenance.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and is in a safe position.
- Remove any existing dies from the press.
- Insert the Redding Type S Bushing Full Length Sizing Die into the press according to the manufacturer's instructions.
- Secure the die in place, ensuring it is tightly fitted.

2. Usage:

- Select the appropriate bushing for the cartridge you are resizing.
- Adjust the decapping rod to the desired position if resizing only part of the neck length.
- Place the cartridge case into the shell holder of the press.
- Slowly raise the ram to resize the case, applying steady pressure.
- After resizing, remove the cartridge case and inspect it for proper resizing and any damage.
- Repeat the process for additional cases as needed.

3. Post Use:

- Clean the die after use to remove any debris or residue.
- Store the die in a safe, dry place away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not throw the die in regular household waste. Instead, check with local recycling programs or hazardous waste facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Redding Type S Bushing Full Length Sizing Die, please refer to the manufacturer's contact details provided on the product packaging or their official website. You can also check for any recall updates on the EU's Safety Gate platform.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Type S Bushing Full Length Sizing Die. Thank you for prioritizing safety in your reloading activities.
