

TYPE S BUSHING FULL DIES - REDDING 223 REMINGTON ACKLEY IMPROVED BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Safety Instruction Guide for TYPE S BUSHING FULL DIES REDDING 223 REMINGTON ACKLEY IMPROVED BUSHING FULL LENGTH TYPE S DIE

Introduction

Thank you for choosing the TYPE S BUSHING FULL DIES from Redding. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this product.
- Always wear appropriate safety gear, such as safety glasses, when using reloading dies.
- Keep the dies and all reloading components out of reach of children and unauthorized individuals.
- Inspect the dies before each use for any signs of wear or damage.
- Follow all local laws and regulations regarding ammunition reloading and handling.

Specific Safety Precautions for Use

- Only use the TYPE S BUSHING FULL DIE with compatible cartridges (e.g., .223 Remington Ackley Improved).
- Ensure that the die is securely mounted in the reloading press before use.
- Do not attempt to resize cases that are excessively damaged or deformed.
- Always adjust the bushing position according to the manufacturer's instructions to prevent oversizing.
- Be aware of the risk of case neck splitting if the resizing is done improperly.
- Use caution when handling cases that have been resized, as they may have sharp edges.

Instructions for Installation and Usage

1. Installation:

- Securely attach the TYPE S BUSHING FULL DIE to your reloading press.
- Ensure that the die is properly aligned with the press ram.
- Insert the appropriate bushing into the die according to the desired neck size.

2. Usage:

- Place a clean and inspected cartridge case into the shell holder.
- Raise the press ram to bring the cartridge case into contact with the die.
- Adjust the decapping rod as needed to size only part of the neck length, if desired.
- Lower the ram and remove the resized cartridge case from the shell holder.
- Inspect the resized case for any defects before proceeding with further reloading steps.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not throw away the dies in regular household waste. Instead, consider recycling options or specialized waste disposal services.
- Ensure that all materials are disposed of in a way that does not pose a risk to the environment or public safety.

Contact Information for Further Support

For safety inquiries or additional support, please contact the manufacturer or your local distributor. Ensure that you have the product information available when reaching out for assistance.

By following these safety instructions and guidelines, you can ensure the safe use of the TYPE S BUSHING FULL DIES from Redding. Always prioritize safety while reloading and handling ammunition components.
