

# CARBIDE 3-DIE HANDGUN SETS - REDDING CARBIDE 3-DIE SET 38 SPECIAL/357 MAG

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Titanium carbide differs considerably from other carbides, and is the ideal material for resizing cartridge cases. Titanium carbide has the highest hardness of any readily available carbide. The difference is in the microstructure. Viewed under a microscope it appears smooth and rounded, which presents a slippery non-galling surface, ideal for lubeless resizing of cartridges. The Carbide 3-Die set includes the Titanium Carbide sizing die, expander die and bullet seating die with built-in crimp.

## Attributes

- Name: [REDDING CARBIDE 3-DIE SET 38 SPECIAL/357 MAG](#)
- Manufacturer: [REDDING](#)
- Product no.: 749006627

# CARBIDE 3DIE HANDGUN SETS REDDING CARBIDE 3DIE SET 38 SPECIAL/357 MAG Safety Instruction Guide

## Introduction

Thank you for choosing the Redding Carbide 3Die Set for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

## General Safety Guidelines

- Always handle reloading equipment with care and follow all safety instructions.
- Ensure that the workspace is clean, welllit, and free from distractions.
- Keep the reloading area secure and out of reach of children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling materials.
- Familiarize yourself with the specific characteristics of the materials you are working with.

## Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware that improper use of the die set can result in personal injury or damage to the equipment.
- **Cartridge Compatibility:** Only use the die set with .38 Special and .357 Magnum cartridges as indicated. Using the wrong cartridges may lead to malfunctions or accidents.
- **Lubeless Resizing:** The Titanium Carbide surface allows for lubeless resizing. However, if you notice resistance during resizing, stop and inspect the cartridge case for issues.
- **Inspection of Equipment:** Regularly inspect the dies for damage or wear. Replace any damaged components immediately.
- **Proper Storage:** Store the die set in a dry place to prevent corrosion or damage.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Ensure your reloading press is securely mounted.
- Install the Titanium Carbide sizing die in the press according to the manufacturer's instructions.
- Follow with the expander die and bullet seating die, ensuring each is tightened securely.

### 2. Usage Instructions:

- Begin by resizing the cartridge cases using the sizing die. Ensure that the press operates smoothly.
- After resizing, use the expander die to prepare the case mouth for bullet seating.
- Finally, use the bullet seating die to seat the bullet to the desired depth, ensuring that the builtin crimp is applied correctly.
- Always doublecheck the measurements and the overall length of the loaded cartridge against specifications.

### 3. PostUse Care:

- Clean the dies after use to remove any residue or debris.
- Store the die set in its original packaging or a suitable container to protect it from damage.

## **Disposal Instructions**

- Dispose of any damaged or unusable components in accordance with local regulations.
- Recycle materials where possible, ensuring that hazardous materials are handled according to local laws.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to the contact details provided with the product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure the safe and effective use of the Redding Carbide 3Die Set. Always prioritize safety and compliance with local regulations when handling reloading equipment. Thank you for your attention to these important safety instructions.
