Safety Instruction Guide for Redding Neck Sizing Die Sets

Introduction

Thank you for choosing the Redding Neck Sizing Die Set for 257 Roberts Ackley Imp 40. This guide provides essential safety instructions and usage information to ensure your safe and effective use of this product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Keep the die set out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, such as safety glasses, when using reloading equipment.
- Inspect the die set for any damage before use. Do not use if damaged.
- Use the product in a wellventilated area to avoid inhalation of any potentially harmful substances.
- Store the die set in a dry and safe place when not in use.

Specific Safety Precautions for Use

- Always follow the manufacturer's instructions for reloading ammunition.
- Do not exceed recommended load limits for your specific cartridge.
- Ensure that the work area is clean and free of obstructions to prevent accidents.
- Be aware of the potential hazards of handling primers and powders, including fire and explosion risks.
- Use only compatible components with your Redding Neck Sizing Die Set.
- Never point the die set or any reloading equipment at yourself or others while in use.

Instructions for Installation and Usage

1. Unpacking the Die Set

- Carefully remove the die set from its packaging.
- Check for all components: two dies, decapping rod assembly, neck expander button, bullet guide, crimp ring, and seating plug.

2. Setting Up the Neck Sizing Die

- Install the neck sizing die into your reloading press according to the manufacturer's instructions.
- Adjust the die to the appropriate height for your specific cartridge.

3. Using the Decapping Rod Assembly

- Ensure the decapping rod is securely attached.
- Insert a case into the die and operate the press to decap the primer safely.

4. Expanding the Neck

- After decapping, use the neck expander button to expand the case neck.
- Ensure proper alignment to avoid damaging the case.

5. Seating the Bullet

- Install the seating die into the press.
- Use the bullet guide to properly align the bullet with the case.

- Adjust the seating plug to achieve the desired bullet seating depth.

6. Crimping the Case

- If necessary, use the builtin crimp ring to secure the bullet in place.
- Adjust the crimping operation according to your preferences and specifications.

7. Final Inspection

- Inspect the completed cartridge for any defects before storage or use.

Disposal Instructions

- Dispose of any unused materials, such as primers and powders, in accordance with local regulations.
- Recycle packaging materials where possible.
- Follow local guidelines for disposing of hazardous materials to ensure environmental safety.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product. It is essential to have access to assistance for any safety concerns or productrelated questions.

By following these guidelines, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die Set. Always prioritize safety and consult the manufacturer for any specific concerns or questions regarding the use of this product.
