

# ULTRA™ MICROMETER SEATER DIES - 204 RUGER MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

## Attributes

- Name: [204 RUGER MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749006729

# ULTRA™ MICROMETER SEATER DIES 204 RUGER MICROMETER SEATER DIE Safety Instruction Guide

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES 204 RUGER MICROMETER SEATER DIE by Forster Products, Inc. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure safe use of the ULTRA™ MICROMETER SEATER DIES by following all safety instructions.
- Be aware of potential hazards associated with reloading equipment, including but not limited to:
  - Injury from improper handling of tools.
  - Risks of misfires or accidents due to incorrect die adjustments.
- Always use the product in accordance with manufacturer guidelines to minimize risks.
- Keep this product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using reloading equipment.
- Ensure that your workspace is clean, welllit, and free from distractions.
- Verify that the die is compatible with the cartridge being used (204 Ruger).
- Before adjusting the micrometer, ensure the die is not in contact with a live round.
- Avoid overtightening the locking ring to prevent damage to the die.
- Regularly inspect the die for wear or damage before each use. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die in the reloading press following the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened to avoid movement during use.

### 2. Usage:

- Set the micrometer adjustment to the desired bullet seating depth. Adjustments can be made in increments of .0005 inch to .001 inch.
- Insert the bullet into the case and position it under the die.
- Slowly lower the press handle to seat the bullet. Monitor the process to ensure proper seating.
- After seating, check the bullet depth using a caliper to ensure accuracy.
- If switching to a different bullet type, return to the previous recorded setting for quick adjustments.

### 3. PostUse:

- Clean the die after each use to remove any debris or residue.
- Store the die in a safe, dry place, away from children and unauthorized users.

## Disposal Instructions

- Dispose of any damaged or unusable reloading dies in accordance with local regulations.
- Do not dispose of in regular household waste if the product is considered hazardous.
- Contact local waste management authorities for guidance on proper disposal methods.

## Contact Information for Further Support

For support or inquiries related to the ULTRA™ MICROMETER SEATER DIES, please refer to the official Forster Products, Inc. website or contact your local distributor for assistance.

Thank you for prioritizing safety when using the ULTRA™ MICROMETER SEATER DIES 204 RUGER MICROMETER SEATER DIE. Your commitment to following these guidelines helps ensure a safe reloading experience.
