

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC. 22 BR MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 22 BR MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. These reloading dies are designed to enhance your reloading experience by providing precision and accuracy. This safety instruction guide is designed to ensure your safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that all safety protocols are followed during the reloading process.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including eye protection and gloves, when using reloading equipment.
- Familiarize yourself with the operation of the die before use to avoid accidents.
- Regularly inspect the die for signs of wear or damage before each use.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Do not exceed the recommended bullet seating depths and adjustments.
- Avoid using the die with damaged or improperly sized cartridges.
- Ensure that the die is securely mounted to your reloading press before use.
- Use the micrometer adjustment carefully and ensure it is locked in place before seating bullets.
- If you notice any unusual sounds or resistance during operation, stop immediately and inspect the die.
- Do not attempt to modify or repair the die yourself. Contact a qualified technician for assistance.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is clean and free of debris.
- Securely attach the ULTRA™ MICROMETER SEATER DIE to your reloading press according to the manufacturer's instructions.
- Make sure the die is properly aligned with the shell holder.

2. Usage:

- Adjust the micrometer to your desired bullet seating depth. The adjustment range is from .0005 inch to .001 inch increments.
- Insert the cartridge into the shell holder and raise the ram to engage the die.
- Carefully lower the ram to seat the bullet. Monitor the micrometer setting for accuracy.
- After seating, check the overall cartridge length to ensure it meets your specifications.
- Record your micrometer settings for future reference, making it easy to switch bullets.

Disposal Instructions

- Dispose of any spent cartridges and components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check with local waste management authorities for proper disposal methods.
- Recycle materials where applicable, ensuring that all parts are disposed of safely.

Contact Information for Further Support

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the contact information provided by the retailer or manufacturer. It is important to have a point of contact for safety inquiries and product support.

Conclusion

By following the safety guidelines and instructions outlined in this document, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and stay informed about best practices in reloading. Thank you for choosing Forster Products, Inc.
